FORM 2
MCH BUDGET DETAILS FOR FY 2013
[Secs. 504 (d) and 505(a)(3)(4)]
STATE: ME

1. FEDERAL ALLOCATION		\$	3,375,617
(Item 15a of the Application Face Sheet [SF 424])			
Of the Federal Allocation (1 above), the amount earmarked for:			
A. Preventive and primary care for children:			
\$	1,879,935	(55.69 %)
B. Children with special health care needs:			
\$	1,230,551	(36.45 %)
(If either A or B is less than 30%, a waiver request must accompany the application)[Sec. 505(a)(3)]			
C. Title V administrative costs:			
\$	265,131	(7.85 %)
(The above figure cannot be more than 10%)[Sec. 504(d)]			
2. UNOBLIGATED BALANCE (Item 15b of SF 424)		\$	0
3. STATE MCH FUNDS (Item 15c of the SF 424)		\$	9,262,438
4. LOCAL MCH FUNDS (Item 15d of SF 424)		\$	0
5. OTHER FUNDS (Item 15e of SF 424)		\$	0
6. PROGRAM INCOME (Item 15f of SF 424)		\$	0
7. TOTAL STATE MATCH (Lines 3 through 6)		\$	9,262,438
(Below is your State's FY 1989 Maintenance of Effort Amount)			
\$	3,903,140		
8. FEDERAL-STATE TITLE V BLOCK GRANT PARTNERSHIP (SUBTOTAL)		\$	12,638,055
(Total lines 1 through 6. Same as line 15g of SF 424)			
9. OTHER FEDERAL FUNDS		(Funds under the control of the person responsible for the administration of the Title V program)	
a. SPRANS:	\$	8,726,372	
b. SSDI:	\$	65,357	
c. CISS:	\$	0	
d. Abstinence Education:	\$	0	
e. Healthy Start:	\$	0	
f. EMSC:	\$	0	
g. WIC:	\$	0	
h. AIDS:	\$	0	
i. CDC:	\$	152,000	
j. Education:	\$	0	
k. Home Visiting:	\$	0	
l. Other:	\$	0	
<u>Family Planning</u>	\$	410,274	
<u>SANHSA</u>	\$	916,000	
10. OTHER FEDERAL FUNDS (SUBTOTAL of all Funds under item 9)		\$	10,270,003
11. STATE MCH BUDGET TOTAL		\$	22,908,058
(Partnership subtotal + Other Federal MCH Funds subtotal)

FORM 10
TITLE V MATERNAL & CHILD HEALTH SERVICES BLOCK GRANT
 STATE PROFILE FOR FY 2013
 [Sec. 506(a)(1)]
 STATE: ME

1. State MCH Administration:
 (max 2500 characters)

The Title V Program is administered through the Division of Population Health in the Maine Center for Disease Control and Prevention within the Department of Health and Human Services. Programs included in Title V are: Oral Health, Maine Injury Prevention, Adolescent and School Health, Children with Special Health Needs, State Systems Development Initiative, Public Health Nursing, Maine Families Home Visiting, Special Supplemental Nutrition for Women, Infants and Children, Women's Health, Early Childhood Initiative, and Medical and Epidemiology Consultation.

Block Grant Funds

2. Federal Allocation (Line 1, Form 2)	\$ 3,375,617
3. Unobligated balance (Line 2, Form 2)	\$ 0
4. State Funds (Line 3, Form 2)	\$ 9,262,438
5. Local MCH Funds (Line 4, Form 2)	\$ 0
6. Other Funds (Line 5, Form 2)	\$ 0
7. Program Income (Line 6, Form 2)	\$ 0
8. Total Federal-State Partnership (Line 8, Form 2)	\$ 12,638,055

9. Most significant providers receiving MCH funds

	Family Planning Association of Maine
	Public Health Nursing
	Children with Special Health Needs
	School-Based Health Centers

10. Individuals served by the Title V Program (Col. A, Form 7)

a. Pregnant Women	12,568
b. Infants < 1 year old	12,875
c. Children 1 to 22 years old	75,235
d. CSHCN	3,500
e. Others	0

11. Statewide Initiatives and Partnerships:

a. Direct Medical Care and Enabling Services:
 (max 2500 characters)

School Based Health Centers (SBHC), administered by the Adolescent and School Health Coordinator represent an excellent example of improved health care access through existing institutions. The Division focus related to SBHCs is to maintain the number of centers, and to facilitate the integration of quality improvement into clinic operations. A state level advisory group functions to explore opportunities and increase awareness to ensure on-going funding for SBHCs. The WC Program, in collaboration with Public Health Nursing, is encouraging breastfeeding and developing systems of support for breastfeeding women. More than half of mothers are breastfeeding at hospital discharge. A broad approach focusing on hospitals, individual counseling regarding breastfeeding benefits as well as developing systems of support are being employed in order to substantially increase the incidence and duration of breastfeeding.

b. Population-Based Services:
 (max 2500 characters)

Newborn Bloodspot Screening through the CSHN section has been very effective in both screening and identifying those with positive results and connecting them in a timely manner with appropriate medical services. This has been facilitated through the cross match of screening results and birth certificates. The Oral Health Program continues to promote proven oral health education programs and maintains, as much as possible, oral health prevention services, as well as data capability. The Oral Health Program works with multiple stakeholders (state and non-governmental agencies) to increase access to dental care/services. The Public Health Nursing Program provides surveillance of all Sudden Unexpected Infant Death (SUID) events in the state. Across the state, public health nurses respond to all cases identified as a possible SUID death offering support and follow up services to families and individuals. During 2005 and 2006 the Family Health Division laid the groundwork to establish a Maternal Fetal and Infant Mortality Review (MFIMR). Infant deaths classified as SUID are included in the cases reviewed. The MFIMR reviews began in late FY08.

c. Infrastructure Building Services:
 (max 2500 characters)

The CSHN Program utilizes a portion of its limited resources to maintain the Birth Defects Registry through passive surveillance. The Birth Defects Program increased the number of conditions reported from 22 to 45. The CSHN Program is also working with non-governmental partners to have all pediatric providers consistently include developmental assessments as part of well child care using the Ages and Stages Questionnaire (ASQ) followed by the Modified - Checklist for Autism Toddlers (M-CHAT-1) and MCHAT-2 if appropriate. The Maine Injury Prevention Program continues to build capacity at the district level by awarding mini grants to conduct an injury prevention intervention or injury prevention policy within each of the states' Public Health Districts.

12. The primary Title V Program contact person:

Name Valerie J. Ricker, MSN, MS
 Title Assistant Director, Division of Population Health
 Address KeyBank Plaza, 7th Fl., 11 SHS

Field Level Notes

1. Section Number: Form11_Performance Measure #2

Field Name: PM02

Row Name:

Column Name:

Year: 2011

Field Note:

For 2011-2014, indicator data come from the National Survey of Children with Special Health Care Needs (CSHCN), conducted by the U.S. Health Resources and Services Administration and the U.S. Centers for Disease Control and Prevention in 2009-2010. This survey was first conducted in 2001. The same questions were used to generate this indicator for both the 2001 and the 2005-06 CSHCN survey. However, in 2009-2010 there were wording changes and additions to the questions used to generate this indicator. The data for 2009-2010 are NOT comparable to earlier versions of the survey.

All estimates from the National Survey of CSHCN are subject to sampling variability, as well as survey design flaws, respondent classification and reporting errors, and data processing mistakes.

Denominator: CSHCN age 0 -17 years

Numerator: CSHCN whose families usually or always feel that they are partners in decision making around issues important to their child's health; Outcome not successfully achieved

Revisions and Changes: The items used to develop this measure were revised substantially between 2005/06 and 2009/10. This measure is now based on whether CSHCN have families who usually or always feel that they: 1) discuss with providers a range of options to consider for their child's treatment; 2) are encouraged to ask questions or raise concerns; 3) it is easy to ask questions or raise concerns; and 4) their health care providers consider and respect what treatment choices the parent feels would be best for child.

2. Section Number: Form11_Performance Measure #2

Field Name: PM02

Row Name:

Column Name:

Year: 2010

Field Note:

Indicator data comes from the National Survey of CSHCN, conducted by HRSA and CDC, 2009-2010.

Denominator: CSHCN age 0 -17 years

Numerator: CSHCN whose families usually or always feel that they are partners in decision making around issues important to their child's health; Outcome not successfully achieved

Revisions and Changes: The items used to develop this measure were revised substantially between 2005/06 and 2009/10. This measure is now based on whether CSHCN have families who usually or always feel that they: 1) discuss with providers a range of options to consider for their child's treatment; 2) are encouraged to ask questions or raise concerns; 3) it is easy to ask questions or raise concerns; and 4) their health care providers consider and respect what treatment choices the parent feels would be best for child.

3. Section Number: Form11_Performance Measure #2

Field Name: PM02

Row Name:

Column Name:

Year: 2009

Field Note:

Indicator data comes from the National Survey of CSHCN, conducted by HRSA and CDC, 2005-2006. The same questions were used to generate the NPM02 indicator for both the 2001 and the 2005-2006 CSHCN survey.

Maine's value on this indicator is comparable to the national indicator of 57.4%. An objective of 65% is projected for the next administration of the survey. The objective for 2010 is based in part on a "report card" administered by the Maine Children with Special Health Needs Program to about 40 stakeholders across Maine. These CSHN "Report Cards" are based on the work done by Utah State University, Early Intervention Research Institute's Measuring and Monitoring Community-based System's of Care for CYSHCN. The "report card" is a CQI process that has provided the Maine CSHN Program essential information on the degree to which the program's services, policies and practices are working for families.

PERFORMANCE MEASURE # 03

The percent of children with special health care needs age 0 to 18 who receive coordinated, ongoing, comprehensive care within a medical home. (CSHCN Survey)

	<u>Annual Objective and Performance Data</u>				
	2007	2008	2009	2010	2011
Annual Performance Objective	65	51.7	51.7	51.7	55

Field Level Notes

1. Section Number: Form11_Performance Measure #3

Field Name: PM03

Row Name:

Column Name:

Year: 2011

Field Note:

For 2011-2014, indicator data come from the National Survey of Children with Special Health Care Needs (CSHCN), conducted by the U.S. Health Resources and Services Administration and the U.S. Centers for Disease Control and Prevention in 2009-2010.

All estimates from the National Survey of CSHCN are subject to sampling variability, as well as survey design flaws, respondent classification and reporting errors, and data processing mistakes.

Denominator: CSHCN age 0 -17 years

Numerator: CSHCN receiving adequate care on all needed components of medical home assessed by the survey; CSHCN who did not achieve this outcome

Revisions and Changes: One minor revision was undertaken between the 2005/06 and 2009/10 NS-CSHCN surveys. An item assessing whether or not the child or child's family required an interpreter and whether or not the interpreter was usually or always provided was dropped from the survey due to low prevalence.

2. Section Number: Form11_Performance Measure #3

Field Name: PM03

Row Name:

Column Name:

Year: 2010

Field Note:

Indicator data come from the National Survey of Children with Special Health Care Needs (CSHCN), conducted by the U.S. Health Resources and Services Administration and the U.S. Centers for Disease Control and Prevention in 2009-2010.

All estimates from the National Survey of CSHCN are subject to sampling variability, as well as survey design flaws, respondent classification and reporting errors, and data processing mistakes.

Denominator: CSHCN age 0 -17 years

Field Level Notes

1. Section Number: Form11_Performance Measure #5

Field Name: PM05

Row Name:

Column Name:

Year: 2011

Field Note:

For 2011-2014, indicator data come from the National Survey of Children with Special Health Care Needs (CSHCN), conducted by the U.S. Health Resources and Services Administration and the U.S. Centers for Disease Control and Prevention in 2009-2010.

Denominator: CSHCN age 0-17 years

Numerator: CSHCN whose families report no difficulties or frustration accessing services needed for their child in the past 12 months; CSHCN who did not achieve this outcome

Revisions and Changes: These items were substantially revised in 2009. This measure is now comprised of six difficulties with accessing care: 1) not eligible for services; 2) services not available in your area; 3) waiting lists or other problems getting appointments; 4) issues related to cost; 5) trouble getting the information you needed; 6) any other difficulties not mentioned AND an assessment of how often parents were frustrated in their efforts to get services. Those CSHCN in the numerator answered YES to one of the six difficulties and usually or always to the frustration item. This measure is not comparable to outcome #5 from the 2005/06 NS-CSHCN survey.

All estimates from the National Survey of CSHCN are subject to sampling variability, as well as survey design flaws, respondent classification and reporting errors, and data processing mistakes.

2. Section Number: Form11_Performance Measure #5

Field Name: PM05

Row Name:

Column Name:

Year: 2010

Field Note:

Indicator data comes from the National Survey of CSHCN, conducted by HRSA and CDC, 2009-2010.

Denominator: CSHCN age 0-17 years

Numerator: CSHCN whose families report no difficulties or frustration accessing services needed for their child in the past 12 months; CSHCN who did not achieve this outcome

Revisions and Changes: These items were substantially revised in 2009. Field Note:

Data from 2011 death certificate data are not yet available. 2010 data were used as an estimate.

2. **Section Number:** Form11_Performance Measure #10

Field Name: PM10

Row Name:

Column Name:

Year: 2010

Field Note:

The rate of deaths to children aged 14 years and younger caused by motor vehicle crashes per 100,000 children. Data are from the Maine Office of Data, Research and Vital Statistics. Denominator data are based on estimates as of July 1, 2010 from the US Census Bureau.

The 2010 indicator is the 5-year average for 2006-2010. Due to the small number of motor vehicle deaths, a 5-year moving average has been reported since 1999 in order to control for potential large year-to-year random variation.

The ICD-9 codes included in this measure are E810-E825. This includes non-traffic motor vehicle crashes. This is not the same as the HP2010 objective codes, which only include E810-E819.

3. **Section Number:** Form11_Performance Measure #10

Field Name: PM10

Field Level Notes

- Section Number:** Form11_Performance Measure #11
Field Name: PM11
Row Name:
Column Name:
Year: 2011
Field Note:
 Data for the 2011 indicator are based on the National Immunization Survey and represent provisional data for Maine's 2007 birth cohort. Updated data for this indicator have not yet been released, but are anticipated in 2012.
- Section Number:** Form11_Performance Measure #11
Field Name: PM11
Row Name:
Column Name:
Year: 2010
Field Note:
 Data for the 2010 indicator are based on the National Immunization Survey. Starting in 2006, the NIS changed the way they report breastfeeding rates and some of the breastfeeding questions on the survey. Breastfeeding rates are now reported by year of child's birth, rather than by survey year. Therefore, the 2010 indicator represents provisional data on the percent of children in Maine, born in 2007, who were breastfed for 6 months. Data for this indicator should be finalized in 2012.
- Section Number:** Form11_Performance Measure #11
Field Name: PM11
Row Name:
Column Name:
Year: 2009
Field Note:
 Data for the 2009 indicator are based on the National Immunization Survey. Starting in 2006, the NIS changed the way they report breastfeeding rates and some of the breastfeeding questions on the survey. Breastfeeding rates are now reported by year of child's birth, rather than by survey year. Therefore, the 2009 indicator represents the percent of children in Maine, born in 2006, who were breastfed for 6 months. Data from the 2007, 2008 and 2009 surveys were combined to obtain this estimate.

PERFORMANCE MEASURE # 12

Percentage of newborns who have been screened for hearing before hospital discharge.

	<u>Annual Objective and Performance Data</u>				
	2007	2008	2009	2010	2011
Annual Performance Objective	96.5	96.8	97	97.1	97.9
Annual Indicator	97.1	96.1	97.8	96.0	96.0
Numerator	13,560	12,974	13,054	12,304	12,304
Denominator	13,969	13,500	13,353	12,810	12,810
Data Source		Maine Newborn Hearing Program			
Check this box if you cannot report the numerator because 1. There are fewer than 5 events over the last year, and 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied. (Explain data in a year note. See Guidance, Appendix IX.)

Field Level Notes

- Section Number:** Form11_Performance Measure #12

Field Name: PM12

Row Name:

Column Name:

Year: 2011

Field Note:

2011 data are not yet available. 2010 data are used as an estimate.

- Section Number:** Form11_Performance Measure #12

Field Name: PM12

Row Name:

Column Name:

Year: 2010

Field Note:

The 2010 data are from the Maine Newborn Hearing Program as of February 6, 2012.

The numerator is the number of infants who were screened for hearing loss by 1 month of age.

The denominator is the number of occurent births in Maine in 2010.

- Section Number:** Form11_Performance Measure #12

Field Name: PM12

Row Name:

Column Name:

Year: 2009

Field Note:

The 2009 data were available from the Maine Newborn Hearing Program as of December 31, 2010.

MNHHP does not maintain data on those who are screened prior to discharge from a birth facility, only screened/passed/refer by age. Therefore, the numerator for this indicator reflects infants screened by 1 month of age, the closest proxy we have to screening at discharge. Estimates include all hospitals.

The denominator is the number of occurent births in Maine in 2009.

PERFORMANCE MEASURE # 13

Percent of children without health insurance.

Field Level Notes

- Section Number:** Form11_State Performance Measure #3

Field Name: SM3

Row Name:

Column Name:

Year: 2011

Field Note:

Data comes from Maine's 2011 Integrated Youth Health Survey (MIYHS).

Note change in measurement compared to 2009: In 2011, self-reported height and weight questions were removed from the 5/6 grade survey due to questionable validity of self-report data on height and weight from this age group. Measured height and weight were collected from 5th graders only. Therefore, this estimate reflects measured height and weight for 5th graders and self-reported height and weight from 7th-12th graders. No height or weight data were collected from 6th graders

Data from this survey are weighted, therefore a numerator and denominator for this measure are not presented.

- Section Number:** Form11_State Performance Measure #3

Field Name: SM3

Row Name:

Column Name:

Year: 2010

Field Note:

Data comes from Maine's 2009 Integrated Youth Health Survey (MIYHS) grades 5-12. Data from this survey are weighted, therefore a numerator and denominator for this measure are not presented.

- Section Number:** Form11_State Performance Measure #3

Field Name: SM3

Field Level Notes

1. **Section Number:** Form12_Outcome Measure 2
Field Name: OM02
Row Name:
Column Name:
Year: 2011
Field Note:
 2011 mortality data are not yet available; 2006-2010 data are used as an estimate.

Due to the small number of infant deaths (and especially black infant deaths), a 5-year moving average is reported in order to control for potential large year-to-year random variation.

It is very difficult to make any inferences on the black to white infant mortality rate ratio in Maine due to the extremely small number of black infant deaths each year. In 2010 there were only 3 infant deaths by mothers who were black, and 53 infant deaths by mothers who were white.

2. **Section Number:** Form12_Outcome Measure 2
Field Name: OM02
Row Name:
Column Name:
Year: 2010
Field Note:
 2006-2010 (5-year moving average) data are used as an estimate. Data are preliminary.

Due to the small number of infant deaths (and especially black infant deaths), a 5-year moving average is reported in order to control for potential large year-to-year random variation.

It is very difficult to make any inferences on the black to white infant mortality rate ratio in Maine due to the extremely small number of black infant deaths each year. In 2010 there were only 3 infant deaths to mothers who were black, and 53 infant deaths to mothers who were white.

FORM 14
LIST OF MCH PRIORITY NEEDS

[Sec. 505(a)(5)]

STATE ME FY: 2013

Your State's 5-year Needs Assessment should identify the need for preventive and primary care services for pregnant women, mothers, and infants; preventive and primary care services for children and services for Children with Special Health Care Needs. With each year's Block Grant application, provide a list (whether or not the priority needs change) of the top maternal and child health needs in your state. Using simple sentence or phrase, list below your State's needs. Examples of such statements are: "To reduce the barriers to the delivery of care for pregnant women, " and "The infant mortality rate for minorities should be reduced."

MCHB will capture annually every State's top 7 to 10 priority needs in an information system for comparison, tracking, and reporting purposes; you must list at least 7 and no more than 10. Note that the numbers listed below are for computer tracking only and are not meant to indicate priority order. If your State wishes to report more than 10 priority needs, list additional priority needs in a note at the form level.

1. Reduce suicide and self-inflicted injury in the maternal and child population in Maine.
2. Reduce the prevalence of domestic violence and sexual assault and associated health disparities.
3. Reduce the prevalence of overweight and obesity among children and adults in Maine.
4. Improve reproductive health outcomes for Maine women.
5. Improve behavioral/mental health and trauma status of infants, children and adolescents by offering responsive support, services and educational information.
6. Ensure early identification and a comprehensive and coordinated family-centered system of care for children with autism spectrum disorder.
7. Reduce the incidence of unintentional injuries to Maine's MCH population.
8. Improve adolescent sexual health.
9. Improve women's mental health and access to mental health treatment for women suffering from a mental health condition, including postpartum depression.
10. Reduce children's exposure to violence at home, in school and the community.

FORM 16
STATE PERFORMANCE AND OUTCOME MEASURE DETAIL SHEET
STATE: ME

SP() # 1

PERFORMANCE MEASURE:

The rate of suicide deaths (per 100,000) among those age 20-44 years.

STATUS:

Active

GOAL:

Reduce the number of deaths by suicide among Maine's maternal and child health population.

DEFINITION:

Number of suicide deaths among those age 20-44 per 100,000 population age 20-44

Numerator:

Number of suicide deaths among persons between the ages of 20 and 44 years.

Denominator:

Population of persons in Maine between the ages of 20 and 44 years.

Units: 100000 **Text:** Rate

HEALTHY PEOPLE 2020 OBJECTIVE

18-1. Reduce the suicide rate

DATA SOURCES AND DATA ISSUES

Sources: Numerator: Death certificates, Maine Office of Data, Research and Vital Statistics Denominator: US Census Bureau Population Estimates

SIGNIFICANCE

Suicide is the second leading cause of death among youth and the 4th leading cause of death among women age 15-44 years in Maine. Suicide mortality rates are highest among adults and suicide among young adults aged 20-24 have been increasing in recent years in Maine. Risks for suicide include poor mental health, substance abuse, and trauma. The Maine Injury Prevention Program, part of Maine CDC's Division of Family Health (Maine's Title V agency), is the lead agency devoted in reducing suicide rates across the lifespan. Suicide prevention efforts are designed to reduce suicide rates and the devastating impact of suicide on survivors including family, friends, schools and entire communities.

SP() # 2

PERFORMANCE MEASURE:

The percent of adult women reporting sexual assault or intimate partner violence within the previous 12 months

STATUS:

Active

GOAL

To reduce the prevalence of intimate partner violence and sexual assault among women and its associated health consequences.

DEFINITION

The weighted proportion of females over age 18 reporting intimate partner violence or sexual assault within the previous 12 months.

Numerator:

Number of women reporting intimate partner violence or sexual assault in the past year on Maine's Behavioral Risk Factor Surveillance System (BRFSS)(weighted)

Denominator:

The number of women over age 18 who participated in Maine's BRFSS survey (weighted)

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2020 OBJECTIVE

15-34. Reduce the rate of physical assault by current or former intimate partners and 15-35. Reduce

DATA SOURCES AND DATA ISSUES

Maine Behavioral Risk Factor Surveillance System. Combination of 2 questions.

SIGNIFICANCE

Every year over 7,000 Maine women are physically or sexually assaulted by an intimate partner. In 2008, approximately 48% of homicides in Maine were related to domestic conflicts. In the same year 373 rapes were reported to law enforcement, a 19% increase from 2004. Violence against women is linked to poor physical and mental health outcomes for women and children, such as depression, suicide, STIs, unwanted pregnancies, traumatic brain injury, and chronic pain. A public health approach to the problem is essential to preventing violence before it occurs and reducing its harmful effects.

SP() # 3

PERFORMANCE MEASURE:

Percent of students in grades 5-12 who are overweight or obese.

STATUS:

Active

GOAL

To reduce the prevalence of obesity among Maine's youth.

DEFINITION

The percent of students in grades 5-12 who have a self-reported BMI >85 percentile.

Numerator:

Number of students whose self-reported height and weight indicate they have a BMI greater than the 85th percentile.

Denominator:

Number of public school students in Maine in grades 5-12.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2020 OBJECTIVE

19-3. Reduce the proportion of children and adolescents who are overweight or obese.

DATA SOURCES AND DATA ISSUES

Data are from the Maine Integrated Youth Health Survey. Data on collected from students in grades 5-12 biannually. Data on based on student reported height and weight.

SIGNIFICANCE

There is much concern about the increasing prevalence of obesity in children and adolescents. Overweight and obesity acquired during childhood or adolescence may persist into adulthood and increase the risk for some chronic diseases later in life.

SP() # _____ 4

PERFORMANCE MEASURE:

The rate of unintended births among women less than 24 years of age.

STATUS:

Active

GOAL

Reduce unintended pregnancies among teenagers and young adults in Maine.

DEFINITION

Births to women who reported that they wanted to be pregnant later or didn't want to be pregnant then or anytime in the future.

Numerator:

Number of new mothers in Maine who report that their pregnancy was not intended (wanted to be pregnant later or didn't want to be pregnant then or anytime in the future)

Denominator:

Women who gave birth in Maine during one calendar year.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2020 OBJECTIVE

9-1. Increase the proportion of pregnancies that are intended.

DATA SOURCES AND DATA ISSUES

Maine Pregnancy Risk Assessment Monitoring System. Only measures intended births, not pregnancies.

SIGNIFICANCE

Unintended pregnancy can be a consequence of preconception factors such as access to contraception, substance use, and intimate partner violence. The consequences of unintended pregnancy include inadequate prenatal care, poor birth outcomes, postpartum depression, and child maltreatment.

SP() # 5

PERFORMANCE MEASURE:

The hospitalization rate (per 10,000) of unintentional poisonings among children and youth age 0-24 years.

STATUS:

Active

GOAL

To reduce the number of children and youth who unintentionally ingest medications or other substances that lead to hospitalization.

DEFINITION

The rate (per 10,000) of children and youth admitted to an acute care facility in Maine for unintentional poisoning (e-codes X40-X49).

Numerator:

Number of children and youth 24 years and younger who were hospitalized for unintentional poisoning during a calendar year.

Denominator:

Number of children and youth aged 24 years and younger.

Units: 10000 **Text:** Rate

HEALTHY PEOPLE 2020 OBJECTIVE

15-7. Reduce nonfatal poisonings

DATA SOURCES AND DATA ISSUES

Maine Uniform Hospital Discharge Database, Maine Health Data Organization

SIGNIFICANCE

Unintentional motor vehicle traffic crashes were the leading cause of injury deaths for children and youth ages 1-24 and unintentional poisonings were the second leading cause of death among those age 15-24 years. Unintentional poisoning has been increasing in the state and MIPP has been working with the Northern New England Poison Control Center and the Maine Office of Substance Abuse to examine and address the problem.

SP() # _____ 6

PERFORMANCE MEASURE:

The percent of women with depressive symptoms receiving medication or treatment for a mental health or emotional condition by a doctor or other healthcare provider.

STATUS:

Active

GOAL

To increase the proportion of women who are able to access care and receive treatment for a mental health condition.

DEFINITION

The weighted percent of women age 18 and old in Maine who report receiving treatment or medication for a mental health condition if they also report symptoms of depression on Maine's Behavioral Risk Factor Surveillance System.

Numerator:

The number of women who report receiving medication or treatment for a mental health condition.

Denominator:

The number of women over age 18 residing in Maine who report symptoms of depression on the PHQ-8 (weighted estimate based on the Maine BRFSS survey)

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2020 OBJECTIVE

18-9. Increase the proportion of adults with mental disorders who receive treatment.

DATA SOURCES AND DATA ISSUES

Maine Behavioral Risk Factor Surveillance System

SIGNIFICANCE

More than 1 in 4 women in Maine have ever been diagnosed with depression or have current symptoms of depression. The determinants of mental illness can be biological, social, and neurological. They can include experiences with violence as an adult or child, stressful life events, and lack of social support. It is critical that health care providers screen for signs of mental distress and help patients receive needed treatment. Research suggests that primary care providers can play a critical role in detecting and treating depressive symptoms. This measure will help us assess whether women who are struggling with depression are receiving care.

SP() # _____ 7

PERFORMANCE MEASURE:

The rate of substantiated cases of child abuse and neglect assessed by Maine's Office of Child and Family Services.

STATUS:

Active

GOAL

To reduce the incidence of child maltreatment among Maine families.

DEFINITION

The rate of substantiated child abuse cases per 1,000 population age 0-18 years.

Numerator:

Number of cases assessed by the Maine Office of Child and Family services that receive the designation of "substantiated."

Denominator:

The estimated number of children age 0-18 residing in Maine.

Units: 1000 **Text:** Rate

HEALTHY PEOPLE 2020 OBJECTIVE

15-33. Reduce maltreatment and maltreatment fatalities of children.

DATA SOURCES AND DATA ISSUES

The source for these data are the Maine Office of Child and Family Services. The denominator are from US Census Bureau estimates of children age 0-18 years.

SIGNIFICANCE

Although childhood exposure to violence can occur outside of the home in schools and communities, we have selected to measure childhood exposure to violence in the home. Childhood maltreatment has been linked to poor health outcomes throughout the lifespan including mental illness, chronic disease, substance use, and disability or death.

SP() # _____ 8

PERFORMANCE MEASURE:

The percent of children aged 12-36 months enrolled in Medicaid who have had a claim for a social, emotional or behavioral developmental screening test.

STATUS:

Active

GOAL

To increase the number of children enrolled in Maine's Medicaid program who receive a developmental screening test before age 3.

DEFINITION

The percent of children aged 12-36 months eligible for MaineCare who have a claim for code 96110.

Numerator:

The percent of children aged 12-36 months eligible for MaineCare who have a insurance claim of code 96110.

Denominator:

Number of children aged 12-36 months eligible for MaineCare

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2020 OBJECTIVE

MICH-29

Increase the proportion of young children with an Autism Spectrum Disorder (ASD) and other developmental delays who are screened, evaluated, and enrolled in early intervention services in a timely manner.

DATA SOURCES AND DATA ISSUES

Source: Office of MaineCare Services, Maine Department of Health and Human Services.

SIGNIFICANCE

Maine chose this measure to ensure that all children with autism spectrum disorder/developmental disabilities (ASD/DD) are identified as soon as possible so that the child and family can receive the full benefit of early intervention services and supports.

Final

Provisional

Field Level Notes

1. Section Number: Form17_Health Systems Capacity Indicator #02

Field Name: HSC02

Row Name:

Column Name:

Year: 2011

Field Note:

The percent Medicaid enrollees whose age is less than one year during the reporting year who received at least one initial periodic screen.

2011 indicator is for Federal Fiscal Year 2011 (10/1/10-9/30/11).

This indicator is problematic. Due to Claims Bundling by Rural Health Centers, Federally Qualified Health Centers, and ambulatory hospital based clinics, we can not accurately count the number of infants receiving EPSDT procedure codes. There is no way to tell if the service is a periodic screening for infants seen in these settings. All we can do is count whether or not the infant had a claim.

2. Section Number: Form17_Health Systems Capacity Indicator #02

Field Name: HSC02

Row Name:

Column Name:

Year: 2010

Field Note:

The percent Medicaid enrollees whose age is less than one year during the reporting year who received at least one initial periodic screen.

2010 indicator is for Federal Fiscal Year 2010 (10/1/09-9/30/10).

This indicator is problematic. Due to Claims Bundling by Rural Health Centers, Federally Qualified Health Centers, and ambulatory hospital based clinics, we can not accurately count the number of infants receiving EPSDT procedure codes. There is no way to tell if the service is a periodic screening for infants seen in these settings. All we can do is count whether or not the infant had a claim.

The numerator on this measure is lower than in prior years. The Office of MaineCare Services isn't certain whether this is due to a Sept. 2010 change in the datasystem or due to differences in billing practices when several large practices were subsumed by hospitals.

3. Section Number: Form17_Health Systems Capacity Indicator #02

Field Name: HSC02

Row Name:

Column Name:

Year: 2009

Field Note:

The percent Medicaid enrollees whose age is less than one year during the reporting year who received at least one initial periodic screen.

2009 indicator is for Federal Fiscal Year 2009 (10/1/08-9/30/09).

This indicator is problematic. Due to Claims Bundling by Rural Health Centers, Federally Qualified Health Centers, and ambulatory hospital based clinics, we can not accurately count the number of infants receiving EPSDT procedure codes. There is no way to tell if the service is a periodic screening for infants seen in these settings. All we can do is count whether or not the infant had a claim.

HEALTH SYSTEMS CAPACITY #03

The percent State Childrens Health Insurance Program (SCHIP) enrollees whose age is less than one year during the reporting year who received at least one periodic screen.

	<u>Annual Indicator Data</u>				
	2007	2008	2009	2010	2011
Annual Indicator	<u>82.6</u>	<u>77.3</u>	<u>73.2</u>	<u>60.5</u>	<u>53.8</u>
Numerator	<u>19</u>	<u>17</u>	<u>30</u>	<u>23</u>	<u>14</u>
Denominator	<u>23</u>	<u>22</u>	<u>41</u>	<u>38</u>	<u>26</u>

Check this box if you cannot report the numerator because

1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.
- (Explain data in a year note. See Guidance, Appendix IX.)

Is the Data Provisional or Final?

Final

Provisional

Field Level Notes

1. **Section Number:** Form17_Health Systems Capacity Indicator #03

Field Name: HSC03

Row Name:

Column Name:

Year: 2011

Field Note:

The percent State Childrens Health Insurance Program (SCHIP) enrollees whose age is less than one year during the reporting year who received at least one periodic screen.

The 2011 indicator come from the Office of MaineCare Services and is for federal fiscal year 2011 (10/1/10-9/30/11).

Prior to the development of SCHIP, Maine's MaineCare (Medicaid) Program covered infants up to 185% FPL. With the addition of the SCHIP program, coverage was expanded to cover infants between 185% and 200% of FPL. This translates to a small number of infants. Rural Health Centers, Federally Qualified Health Centers, and ambulatory hospital based clinics are permitted to bundle their Medicaid claims. With claims bundling, the Medicaid agency is unable to specifically count the number of persons receiving EPSDT procedure codes, as there is no way to determine if the service was a periodic screen. We believe this results in under reporting for this indicator.

2. **Section Number:** Form17_Health Systems Capacity Indicator #03

Field Name: HSC03

Row Name:

Column Name:

Year: 2010

Field Note:

The percent State Childrens Health Insurance Program (SCHIP) enrollees whose age is less than one year during the reporting year who received at least one periodic screen.

The 2010 indicator come from the Office of MaineCare Services and is for federal fiscal year 2010 (10/1/09-9/30/10).

Prior to the development of SCHIP, Maine's MaineCare (Medicaid) Program covered infants up to 185% FPL. With the addition of the SCHIP program, coverage was expanded to cover infants between 185% and 200% of FPL. This translates to a small number of infants. Rural Health Centers, Federally Qualified Health Centers, and ambulatory hospital based clinics are permitted to bundle their Medicaid claims. With claims bundling, the Medicaid agency is unable to specifically count the number of persons receiving EPSDT procedure codes, as there is no way to determine if the service was a periodic screen. We believe this results in under reporting for this indicator.

The numerator on this measure is lower than in prior years. The Office of MaineCare Services isn't certain whether this is due to a Sept. 2010 change in the data system or due to differences in billing practices when several large practices were subsumed by hospitals.

3. **Section Number:** Form17_Health Systems Capacity Indicator #03

Field Name: HSC03

Row Name:

Column Name:

Year: 2009

Field Note:

The percent State Childrens Health Insurance Program (SCHIP) enrollees whose age is less than one year during the reporting year who received at least one periodic screen.

The 2009 indicator come from the Office of MaineCare Services and is for federal fiscal year 2009 (10/1/08-9/30/09).

Prior to the development of SCHIP, Maine's MaineCare (Medicaid) Program covered infants up to 185% FPL. With the addition of the SCHIP program, coverage was expanded to cover infants between 185% and 200% of FPL. This translates to a small number of infants. Rural Health Centers, Federally Qualified Health Centers, and ambulatory hospital based clinics are permitted to bundle their Medicaid claims. With claims bundling, the Medicaid agency is unable to specifically count the number of persons receiving EPSDT procedure codes, as there is no way to determine if the service was a periodic screen. We believe this results in under reporting for this indicator. There is a significant drop in the percentage of children less than one year of age receiving at least one periodic screen in CY03. To date, the etiology of the drop has not been determined. In 1999, Medicaid blended SCHIP with Title XIX.

HEALTH SYSTEMS CAPACITY #04

The percent of women (15 through 44) with a live birth during the reporting year whose observed to expected prenatal visits are greater than or equal to 80 percent on the Kotelchuck Index.

	<u>Annual Indicator Data</u>				
	2007	2008	2009	2010	2011
Annual Indicator	<u>86.5</u>	<u>84.7</u>	<u>84.8</u>	<u>85.1</u>	<u>86.1</u>
Numerator	<u>12,163</u>	<u>11,506</u>	<u>11,399</u>	<u>11,006</u>	<u>10,906</u>
Denominator	<u>14,068</u>	<u>13,582</u>	<u>13,435</u>	<u>12,931</u>	<u>12,672</u>

Check this box if you cannot report the numerator because

1. There are fewer than 5 events over the last year, and
2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

Row Name:

Column Name:

Year: 2009

Field Note:

The percent of EPSDT eligible children aged 6 through 9 years who have received any dental services during the year.

Data are from the Office of MaineCare Services, Maine Department of Health and Human Services.

2009 indicator is for federal fiscal year 2009 (10/1/08-9/30/09).

HEALTH SYSTEMS CAPACITY #08

The percent of State SSI beneficiaries less than 16 years old receiving rehabilitative services from the State Children with Special Health Care Needs (CSHCN) Program.

	2007	2008	Annual Indicator Data		
			2009	2010	2011
Annual Indicator	0.3	0.2	0.2	0.1	0.1
Numerator	9	5	5	2	2
Denominator	3,096	3,080	3,228	3,310	3,433

Check this box if you cannot report the numerator because

1. There are fewer than 5 events over the last year, and
2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.
(Explain data in a year note. See Guidance, Appendix IX.)

Field Level Notes

1. Section Number: Form17_Health Systems Capacity Indicator #08

Field Name: HSC08

Row Name:

Column Name:

Year: 2011

Field Note:

The percent of State SSI beneficiaries less than 16 years old receiving rehabilitative services from the State Children with Special Health Care Needs (CSHCN) Program.

The numerator is from Maine's CSHN program. The denominator comes from the federal Social Security Administration: http://www.ssa.gov/policy/docs/statcomps/ssi_sc/#state

This indicator has decreased as the CSHCN program is moving from a direct service program to actively building a community-based system of care. As of July 1, 2005, Maine's CSHN Program stopped serving clients who receive all of their services through MaineCare (Medicaid). Since the SSI population automatically receive MaineCare, this population has been reduced. The CSHCN program serves only those SSI beneficiaries whose needs cannot be met through MaineCare.

2. Section Number: Form17_Health Systems Capacity Indicator #08

Field Name: HSC08

Row Name:

Column Name:

Year: 2010

Field Note:

The percent of State SSI beneficiaries less than 16 years old receiving rehabilitative services from the State Children with Special Health Care Needs (CSHCN) Program.

The numerator is from Maine's CSHN program. The denominator comes from the federal Social Security Administration: http://www.ssa.gov/policy/docs/statcomps/ssi_sc/#state

This indicator has decreased as the CSHCN program is moving from a direct service program to actively building a community-based system of care. As of July 1, 2005, Maine's CSHN Program stopped serving clients who receive all of their services through MaineCare (Medicaid). Since the SSI population automatically receive MaineCare, this population has been reduced. The CSHCN program serves only those SSI beneficiaries whose needs cannot be met through MaineCare.

FIELD LEVEL NOTES

1. **Section Number:** Form18_Indicator 06 - Medicaid

Field Name: Med_Infant

Row Name: Infants

Column Name:

Year: 2013

Field Note:

Data are from the Kaiser State Health Facts factsheet for Maine. Eligibility information is for a "Family of 3" in 2012.

2. **Section Number:** Form18_Indicator 06 - Medicaid

Field Name: Med_Children

Row Name: Medicaid Children

Column Name:

Year: 2013

Field Note:

Data are from the Kaiser State Health Facts factsheet for Maine. Eligibility information is for a "Family of 3" in 2012.

3. **Section Number:** Form18_Indicator 06 - Medicaid

Field Name: Med_Women

Row Name: Pregnant Women

Column Name:

Year: 2013

Field Note:

Data are from the Kaiser State Health Facts factsheet for Maine. Eligibility information is for a "Family of 3" in 2012.

4. **Section Number:** Form18_Indicator 06 - SCHIP

Field Name: SCHIP_Women

Row Name: Pregnant Women

Column Name:

Year: 2013

Field Note:

Pregnant women are covered up to 200% poverty under regular Medicaid.

5. **Section Number:** Form18_Indicator 05

Field Name: LowBirthWeight

Row Name: Percent of ow birth weight (<2,500 grams)

Column Name:

Year: 2013

Field Note:

Medicaid: Data are from the Office of MaineCare Services, using the MaineCare data system, and are for federal fiscal year 2011.

All: Data are from the Office of Data, Research and Vital Statistics, Maine CDC, using birth certificate files, and are for calendar year 2011.

Non-Medicaid: Calculated by subtracting the Medicaid number of low birthweight babies from the All number of low birthweight babies and dividing that by the number of All live births minus the number of Medicaid live births. Due to the different time periods for which data were available from these two sources (federal fiscal year vs. calendar year), this figure is a rough estimate, rather than an actual value.

Maine's Office of MaineCare Services staff have indicated that there are some concerns about the birth information in the MaineCare data system. Another potential data source for this indicator is the 2011 PRAMS survey, which found that 6.3% of MaineCare births were low birthweight, compared with 4.5% of non-MaineCare births and 5.5% statewide.

6. **Section Number:** Form18_Indicator 05

Field Name: InfantDeath

Row Name: Infant deaths per 1,000 live births

Column Name:

Year: 2013

Field Note:

Medicaid: Data are from the Office of MaineCare Services, using the MaineCare data system, and are for CY2010.

Non-Medicaid: Calculated by subtracting the Medicaid number of infant deaths from the All number of infant deaths and dividing that by the number of All live births minus the number of Medicaid live births.

All: Data are from the Office of Data, Research and Vital Statistics, Maine CDC, using birth certificate files, and are for calendar year 2010. Mortality data are not yet available for 2011.

7. **Section Number:** Form18_Indicator 05

Field Name: CareFirstTrimester

Row Name: Percent of infants born to pregnant women receiving prenatal care beginning in the first trimester

Column Name:

Year: 2013

Field Note:

Medicaid: Data are from the Office of MaineCare Services, using the MaineCare data system, and are for federal fiscal year 2011.

All: Data are from the Office of Data, Research and Vital Statistics, Maine CDC, using birth certificate files, and are for calendar year 2011.

Non-Medicaid: Calculated by subtracting the Medicaid number of infants born to pregnant women receiving prenatal care starting in the first trimester from the All number of infants born to pregnant women receiving prenatal care beginning in the first trimester and dividing that by the number of All live births minus the number of Medicaid live births. Due to the different time periods for which data were available from these two sources (federal fiscal year vs. calendar year), this figure is a rough estimate, rather than an actual value.

Office of MaineCare Services staff have indicated that there are some concerns about the birth information in the MaineCare data system. Another potential data source for this indicator is the 2011 PRAMS survey, which found that 87.5% of women enrolled in MaineCare received prenatal care during the first trimester, compared with 96.5% of women who were not enrolled in MaineCare and 88.9% of women statewide.

8. **Section Number:** Form18_Indicator 05

Field Name: AdequateCare

Row Name: Percent of pregnant women with adequate prenatal care

Column Name:

Year: 2013

Field Note:

Data are from the 2010 PRAMS survey:

"Medicaid" population: 81.7%

"Non-Medicaid" population: 86.2%

"All" population: 86.3%

(Note: For the PRAMS analysis, a woman was considered to be in the "Medicaid" population if she reported that she was enrolled in Medicaid/MaineCare just before pregnancy or that Medicaid/MaineCare was one of the payers for her prenatal care or delivery.)

Data received from the Office of MaineCare Services indicated that only 69.3% of infants were born to mothers who received adequate prenatal care.

FORM 19
 HEALTH SYSTEMS CAPACITY INDICATOR - REPORTING AND TRACKING FORM
 STATE: ME

HEALTH SYSTEMS CAPACITY INDICATOR #09A (General MCH Data Capacity)
(The Ability of the State to Assure MCH Program Access to Policy and Program Relevant Information)

DATABASES OR SURVEYS	Does your MCH program have the ability to obtain data for program planning or policy purposes in a timely manner? (Select 1 - 3) *	Does your MCH program have Direct access to the electronic database for analysis? (Select Y/N)
ANNUAL DATA LINKAGES		
Annual linkage of infant birth and infant death certificates	3	Yes
Annual linkage of birth certificates and Medicaid Eligibility or Paid Claims Files	1	No
Annual linkage of birth certificates and WIC eligibility files	1	No
Annual linkage of birth certificates and newborn screening files	3	Yes
REGISTRIES AND SURVEYS		
Hospital discharge survey for at least 90% of in-State discharges	3	Yes
Annual birth defects surveillance system	3	Yes
Survey of recent mothers at least every two years (like PRAMS)	3	Yes

*Where:
 1 = No, the MCH agency does not have this ability.
 2 = Yes, the MCH agency sometimes has this ability, but not on a consistent basis.
 3 = Yes, the MCH agency always has this ability.

FORM 19
HEALTH SYSTEMS CAPACITY INDICATOR - REPORTING AND TRACKING FORM
 STATE: ME

DATA SOURCES	Does your state participate in the YRBS survey? (Select 1 - 3)*	Does your MCH program have direct access to the state YRBS database for analysis? (Select Y/N)
Youth Risk Behavior Survey (YRBS)	3	Yes
Other: <u>Maine Integrated Youth Health Survey</u>	3	Yes

*Where:
 1 = No
 2 = Yes, the State participates but the sample size is not large enough for valid statewide estimates for this age group.
 3 = Yes, the State participates and the sample size is large enough for valid statewide estimates for this age group.

Notes:
 1. HEALTH SYSTEMS CAPACITY INDICATOR #09B was formerly reported as Developmental Health Status Indicator #05.

Field Name: HSI04A**Row Name:****Column Name:****Year:** 2010**Field Note:**

2010 hospitalization data are not yet available. 2009 data were used as an estimate.

Numerator = # of hospitalizations in 2009 among 0-14 year old Maine residents for which the principal diagnosis is an injury and the patient's disposition is not "expired." Source: Maine Hospital Discharge Dataset

Denominator= 2009 US Census estimate as of July 1, 2009

3. **Section Number:** Fom20_Health Status Indicator #04A

Field Name: HSI04A**Row Name:****Column Name:****Year:** 2009**Field Note:**

Numerator = # of hospitalizations in 2009 among 0-14 year old Maine residents for which the principal diagnosis is an injury and the patient's disposition is not "expired." Source: Maine Hospital Discharge Dataset

Denominator= 2009 US Census estimate as of July 1, 2009

HEALTH STATUS INDICATOR #04B

The rate per 100,000 of nonfatal injuries due to motor vehicle crashes among children aged 14 years and younger.

Annual Indicator Data

	2007	2008	2009	2010	2011
Annual Indicator	16.5	11.7	13.2	13.2	13.2
Numerator	37	26	29	29	29
Denominator	224,216	221,511	219,432	219,432	219,432

Check this box if you cannot report the numerator because

1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

FORM NOTES FOR FORM 21

Population estimates are from the US Census as of 2011. 2012 estimates were not available at the time of submission.

Birth data are from the Maine Office of Data, Research and Vital Statistics.

Mortality data are from the Maine Office of Data, Research and Vital Statistics.

FIELD LEVEL NOTES

1. **Section Number:** Form21_Indicator 09A

Field Name: HSIRace_Children

Row Name: All children 0 through 19

Column Name:

Year: 2013

Field Note:

Data are from the US Census estimates as of July 1, 2011.

2. **Section Number:** Form21_Indicator 09A

Field Name: HSIRace_SingleParentPercent

Row Name: Percent in household headed by single parent

Column Name:

Year: 2013

Field Note:

Based on estimates from the 2008-2010 American Community Survey.

For some race categories, data were not available because of the small number of sample cases.

3. **Section Number:** Form21_Indicator 09A

Field Name: HSIRace_TANFPercent

Row Name: Percent in TANF (Grant) families

Column Name:

Year: 2013

Field Note:

Data source: DHHS Office of Integrated Access and Support

Denominator: 2010 Census

There were 5,751 cases with missing race data.

4. **Section Number:** Form21_Indicator 09A

Field Name: HSIRace_MedicaidNo

Row Name: Number enrolled in Medicaid

Column Name:

Year: 2013

Field Note:

Data are from the Office of MaineCare Services FFY11. Data on ethnicity are not collected separately by race data by MaineCare.

5. **Section Number:** Form21_Indicator 09A

Field Name: HSIRace_SCHIPNo

Row Name: Number enrolled in SCHIP

Column Name:

Year: 2013

Field Note:

Data are from the Office of MaineCare Services for FY2011.

6. **Section Number:** Form21_Indicator 09A

Field Name: HSIRace_FoodStampNo

Row Name: Number enrolled in food stamp program

Column Name:

Year: 2013

Field Note:

Data from the Maine DDHS Office of Integrated Access and Support.

There were 19,740 cases with missing data on race.

7. **Section Number:** Form21_Indicator 09A

Field Name: HSIRace_WICNo

Row Name: Number enrolled in WC

Column Name:

Year: 2013

Field Note:

Data are from the Maine WC program. Maine's WC program is in the process of implementing a new data system so we were unable to obtain 2011 WC enrollment data.

8. **Section Number:** Form21_Indicator 09A

Field Name: HSIRace_JuvenileCrimeRate

Row Name: Rate (per 100,000) of juvenile crime arrests

Column Name:

Year: 2013

Field Note:

Data are from the Maine Office of Public Safety from 2010 and represent arrests of juveniles age 17 years and younger. Data are hispanic ethnicity are not reported.

9. **Section Number:** Form21_Indicator 09A

Field Name: HSIRace_DropOutPercent

Row Name: Percentage of high school drop-outs (grade 9 through 12)

Column Name:

Year: 2013

Field Note:

2011 Data not yet available.

Data are from the Maine Department of Education and represent drop-outs during the 2009-2010 academic year. Data are collected on Whites, Black/African Americans, Native Americans and Asian/Pacific Islander. We cannot separate Pacific Islanders from other Asians (they are reported under "Asian" and there are no data on those of "more than 1 race.")

10. **Section Number:** Form21_Indicator 09B

Field Name: HSIethnicity_Children

Row Name: All children 0 through 19
Column Name:
Year: 2013
Field Note:
Data are from the US Census estimates as of July 1, 2011.

11. **Section Number:** Form21_Indicator 09B
Field Name: HSIethnicity_SingleParentPercent
Row Name: Percent in household headed by single parent
Column Name:
Year: 2013
Field Note:
Based on estimates from the 2008-2010 American Community Survey.
For some race categories, data were not available because of the small number of sample cases.
12. **Section Number:** Form21_Indicator 09B
Field Name: HSIethnicity_TANFPercent
Row Name: Percent in TANF (Grant) families
Column Name:
Year: 2013
Field Note:
Data from the DHHS Office of Integrated Access and Support.
13. **Section Number:** Form21_Indicator 09B
Field Name: HSIethnicity_MedicaidNo
Row Name: Number enrolled in Medicaid
Column Name:
Year: 2013
Field Note:
Data are from the Office of MaineCare Services. Data on ethnicity are not collected separately by race data by MaineCare.
14. **Section Number:** Form21_Indicator 09B
Field Name: HSIethnicity_SCHIPNo
Row Name: Number enrolled in SCHIP
Column Name:
Year: 2013
Field Note:
Data are from the Office of MaineCare Services for FY2011. Data on ethnicity are not collected separately by race data by MaineCare.
15. **Section Number:** Form21_Indicator 09B
Field Name: HSIethnicity_FoodStampNo
Row Name: Number enrolled in food stamp program
Column Name:
Year: 2013
Field Note:
Data are from the Maine DHHS Office of Integrated Access and Support.
16. **Section Number:** Form21_Indicator 09B
Field Name: HSIethnicity_WCNo
Row Name: Number enrolled in WC
Column Name:
Year: 2013
Field Note:
Data are from the Maine WC program.
17. **Section Number:** Form21_Indicator 09B
Field Name: HSIethnicity_JuvenileCrimeRate
Row Name: Rate (per 100,000) of juvenile crime arrests
Column Name:
Year: 2013
Field Note:
Data are from the Maine Office of Public Safety from 2010 and represent arrests of juveniles age 17 years and younger. Data are hispanic ethnicity are not reported.
18. **Section Number:** Form21_Indicator 09B
Field Name: HSIethnicity_DropOutPercent
Row Name: Percentage of high school drop-outs (grade 9 through 12)
Column Name:
Year: 2013
Field Note:
2011 Data not yet available.

Data are from the Maine Department of Education and represent drop-outs during the 2009-2010 academic year. Data are collected on Whites, Black/African Americans, Native Americans and Asian/Pacific Islander. We cannot separate Pacific Islanders from other Asians (they are reported under "Asian" and there are no data on those of "more than 1 race."

No data on non-hispanic drop out rates are available.
19. **Section Number:** Form21_Indicator 10
Field Name: Metropolitan
Row Name: Living in metropolitan areas
Column Name:
Year: 2013
Field Note:
Estimated by applying the percent of Maine's population living in metropolitan areas on the 2010 Census to population estimates as of July 1, 2011.

Metro areas include Portland, Bangor, and Lewiston.
20. **Section Number:** Form21_Indicator 10
