FORM 2
MCH BUDGET DETAILS FOR FY 2013
[Secs. 504 (d) and 505(a)(3)(4)]
STATE: ND

1. FEDERAL ALLOCATION		\$	1,815,867
	(Item 15a of the Application Face Sheet [SF 424])		
	Of the Federal Allocation (1 above), the amount earmarked for:		
	A. Preventive and primary care for children:		
	\$ 726,347 (40 %)		
	B. Children with special health care needs:		
	\$ 605,228 (33.33 %)		
	(If either A or B is less than 30%, a waiver request must accompany the application)[Sec. 505(a)(3)]		
	C. Title V administrative costs:		
	\$ 108,952 (6 %)		
	(The above figure cannot be more than 10%)[Sec. 504(d)]		
2. UNOBLIGATED BALANCE	(Item 15b of SF 424)	\$	601,300
3. STATE MCH FUNDS	(Item 15c of the SF 424)	\$	1,791,875
4. LOCAL MCH FUNDS	(Item 15d of SF 424)	\$	21,000
5. OTHER FUNDS	(Item 15e of SF 424)	\$	0
6. PROGRAM INCOME	(Item 15f of SF 424)	\$	0
7. TOTAL STATE MATCH	(Lines 3 through 6)	\$	1,812,875
	(Below is your State's FY 1989 Maintenance of Effort Amount)		
	\$ 1,208,293		
8. FEDERAL-STATE TITLE V BLOCK GRANT PARTNERSHIP (SUBTOTAL)		\$	4,230,042
	(Total lines 1 through 6. Same as line 15g of SF 424)		
9. OTHER FEDERAL FUNDS			
	(Funds under the control of the person responsible for the administration of the Title V program)		
a. SPRANS:	\$	0	
b. SSDI:	\$	100,000	
c. CISS:	\$	0	
d. Abstinence Education:	\$	0	
e. Healthy Start:	\$	0	
f. EMSC:	\$	0	
g. WIC:	\$	0	
h. AIDS:	\$	0	
i. CDC:	\$	362,561	
j. Education:	\$	0	
k. Home Visiting:	\$	0	
l. Other:	\$	0	
<u>ECCS</u>	\$	150,000	
<u>Family Planning</u>	\$	1,161,900	
<u>HRSA Oral Health</u>	\$	260,045	
10. OTHER FEDERAL FUNDS (SUBTOTAL of all Funds under item 9)		\$	2,034,506
11. STATE MCH BUDGET TOTAL		\$	6,264,548
	(Partnership subtotal + Other Federal MCH Funds subtotal)

FORM NOTES FOR FORM 3

None

FIELD LEVEL NOTES

1. **Section Number:** Form3_Main
Field Name: FedAllocExpended
Row Name: Federal Allocation
Column Name: Expended
Year: 2011
Field Note:
FY 2011 Federal Allocation - the differential between the budgeted and expended amounts is largely reflected in unobligated funds.
2. **Section Number:** Form3_Main
Field Name: FedAllocExpended
Row Name: Federal Allocation
Column Name: Expended
Year: 2010
Field Note:
FY 2010 Federal Allocation - the differential between the budgeted and expended amounts is largely reflected in unobligated funds.
3. **Section Number:** Form3_Main
Field Name: StateMCHFundsExpended
Row Name: State Funds
Column Name: Expended
Year: 2010
Field Note:
FY 2010 State Funds - the differential between the budgeted and expended amounts is largely reflected in unobligated funds. In addition, local public health and county social services are included as State Funds rather than Local MCH Funds.
4. **Section Number:** Form3_Main
Field Name: LocalMCHFundsExpended
Row Name: Local MCH Funds
Column Name: Expended
Year: 2011
Field Note:
FY 2011 Local MCH Funds expended differs by budgeted by more than 10 percent because only the minimum match required is reported - per internal DoH accounting policy.
5. **Section Number:** Form3_Main
Field Name: LocalMCHFundsExpended
Row Name: Local MCH Funds
Column Name: Expended
Year: 2010
Field Note:
FY 2010 Local MCH Funds - the differential between the budgeted and expended amounts is largely reflected in unobligated funds.
6. **Section Number:** Form3_Main
Field Name: OtherFedFundsExpended
Row Name: Other Federal Funds
Column Name: Expended
Year: 2011
Field Note:
FFY 2011 Other Federal Funds - the amount expended differs by more than 10 percent because the abstinence and home visiting grants were not received; hence funds were not expended.
7. **Section Number:** Form3_Main
Field Name: OtherFedFundsExpended
Row Name: Other Federal Funds
Column Name: Expended
Year: 2010
Field Note:
FY 2010 Other Federal Funds expended differs from budgeted by more than ten percent because Family Planning and CDC Oral Health received funding increases. In addition, the BRFSS program was moved and is now under the Division of Family Health.

None

FIELD LEVEL NOTES

1. **Section Number:** Form10_Most significant providers receiving MCH funds
Field Name: ProviderFund1
Row Name:
Column Name:
Year: 2013
Field Note:
MCH funds are used to support services (at all levels of the Pyramid) by providing contracted funds to 26 local public health units, two tribal entities and four other agencies/organizations.

2. **Section Number:** Form10_Most significant providers receiving MCH funds
Field Name: ProviderFund2
Row Name:
Column Name:
Year: 2013
Field Note:
Medical specialists and related health care providers, hospitals and health systems, local public health units, foundations, universities, family organizations, county social service offices and other not-for-profit entities provide direct, enabling, and infrastructure building services for children with special health care needs and their families.

PERFORMANCE MEASURE # 02

The percent of children with special health care needs age 0 to 18 years whose families partner in decision making at all levels and are satisfied with the services they receive. (CSHCN survey)

	<u>Annual Objective and Performance Data</u>				
	2007	2008	2009	2010	2011
Annual Performance Objective	65	65	65	65	63.5
Annual Indicator	63.0	63.0	63.0	75.0	75.0
Numerator	10,090	10,090	10,090	14,443	14,443
Denominator	16,017	16,017	16,017	19,262	19,262
Data Source		See note field.	See note field.	See note field.	See note field.
Check this box if you cannot report the numerator because 1. There are fewer than 5 events over the last year, and 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied. (Explain data in a year note. See Guidance, Appendix IX.)

Field Level Notes

1. Section Number: Form11_Performance Measure #2

Field Name: PM02

Row Name:

Column Name:

Year: 2011

Field Note:

2011-For 2011-2014, indicator data come from the National Survey of Children with Special Health Care Needs (CSHCN), conducted by the U.S. Health Resources and Services Administration and the U.S. Centers for Disease Control and Prevention in 2009-2010. This survey was first conducted in 2001. The same questions were used to generate this indicator for both the 2001 and the 2005-06 CSHCN survey. However, in 2009-2010 there were wording changes and additions to the questions used to generate this indicator. The data for 2009-2010 are NOT comparable to earlier versions of the survey.

All estimates from the National Survey of CSHCN are subject to sampling variability, as well as survey design flaws, respondent classification and reporting errors, and data processing mistakes

2. Section Number: Form11_Performance Measure #2

Field Name: PM02

Row Name:

Row Name:

Column Name:

Year: 2011

Field Note:

2011-Final 2010 data was used as provisional data for 2011. For 2011-2014, indicator data comes from the National Survey of Children with Special Health Care Needs (CSHCN), conducted by the U.S. Health Resources and Services Administration and the U.S. Centers for Disease Control and Prevention in 2009-2010. Compared to the 2001 CSHCN survey, there were revisions to the wording, order, and number of questions used to generate this indicator for the 2005-06 CSHCN survey. The questions were also revised extensively for the 2009-2010 CSHCN survey. Therefore, none of the three rounds of the surveys are comparable.

All estimates from the National Survey of CSHCN are subject to sampling variability, as well as survey design flaws, respondent classification and reporting errors, and data processing mistakes

2. Section Number: Form11_Performance Measure #5

Field Name: PM05

Row Name:

Field Name: PM06

Row Name:

Column Name:

Year: 2011

Field Note:

2011-Final 2010 data was used as provisional data for 2011. For 2011-2014, indicator data comes from the National Survey of Children with Special Health Care Needs (CSHCN), conducted by the U.S. Health Resources and Services Administration and the U.S. Centers for Disease Control and Prevention in 2009-2010. Compared to the 2001 CSHCN survey, there were wording changes, skip pattern revisions, and additions to the questions used to generate this indicator for the 2005-06 CSHCN survey. There were also issues around the reliability of the 2001 data because of the sample size. The data for the 2 surveys are not comparable for NPM 6, and findings from the 2005-06 survey may be considered baseline data. However, the same questions were used to generate the NPM 6 indicator for the 2009-2010 survey. Therefore, the 2005-2006 and 2009-2010 surveys can be compared.

All estimates from the National Survey of CSHCN are subject to sampling variability, as well as survey design flaws, respondent classification and reporting errors, and data processing mistakes.

1. Section Number: Fom11_Performance Measure #7

Field Name: PM07

Row Name:

Column Name:

Year: 2011

Field Note:

2011-Final 2010 data was used as provisional data for 2011. The sources for this data are the CDC National Immunization Survey and the Bureau of Census. The numerator is derived from back calculation. In 2009, the percent of 19 to 35 month olds who received immunizations is lower due to shortage of Haemophilus influenzae type b (Hib) vaccine. The denominator is from the U.S. Census Bureau, Population Division Census 2010. Note: Prior to 2009, the source for denominator data was 2000 census. Note: Prior to CY 2010, the numerator is the number of resident children who have received the complete immunization schedule for DTP/DTAP, OPV, measles, mumps, rubella (MMR), H. influenza, and hepatitis B before their second birthday. Complete immunization status is generally considered to be: 4 DtaP, 3 Polio, 1 MMR, 3 Hib, 3 Hepatitis B (4:3:1:3:3). The numerator for 2010 for North Dakota includes 4 DtaP, 3 Polio, 1 MMR, 3 Hib, 3 Hepatitis B and 1 Varicella (4:3:1:3:3: 1). Data in 2010 includes immunization for Varicella in the current immunization series (4:3:1:3:3: 1). Data from 2009 and 2010 should not be compared with prior years because of changes in measurement for the vaccine series.

Field Level Notes

1. Section Number: Form11_Performance Measure #13

Field Name: PM13

Row Name:

Column Name:

Year: 2011

Field Note:

2011-Final 2010 data was used as provisional data for 2011. The sources for this data are the 2010 Kids Count and the U.S. Census Bureau. The numerator is derived from a back calculation that applies the percent of children without health insurance from Kids Count to the denominator of children birth through 17 from the 2010 census. Note: Prior to 2009, the source for denominator data was 2000 census. In 2009, census estimates were used.

Field Level Notes

1. Section Number: Form11_State Performance Measure #1

Field Name: SM1

Row Name:

Column Name:

Year: 2011

Field Note:

2011-Final 2010 data was used as provisional data for 2011. The source for this data is from the North Dakota Department of Health—Division of Children's Special Health Services, Division of Family Health, Division of Injury Prevention and Control, and Division of Nutrition and Physical Activity. This measure is based on an annual assessment by each of the Title V funded programs in the North Dakota Department of Health which is used to assess efforts to form and strengthen partnerships with families and American Indians. An assessment tool was developed that measures both collaboration efforts of Title V funded programs as well as representation and participation of families and American Indians on committees, task forces and coalitions to achieve health equality in the maternal and child population. It is based on a qualitative assessment of Title V funded programs and measures partnership involvement and collaboration in 6 key areas for both families and American Indians. The assessment tool utilizes a 5 point scale for each key area. The measure is an average of the scores from each of the Title V funded programs. The annual indicator is expressed as a whole number. Note: In 2010, the numerator had an average score of 2.43 and is rounded to 2 as a whole number.

1. Section Number: Form11_State Performance Measure #5

Field Name: SM5

Row Name:

Column Name:

Year: 2011

Field Note:

2011-Final 2010 data was used as provisional data for 2011. The numerator is the total number of North Dakota children ages 0 to 2 served by an evidenced-based home visiting program. The sources for the numerator are Nurse Family Partnership in Fargo, the FACE program using parents as teachers model at the UTTC in Bismarck, Healthy Families of Grand Forks and Healthy Families of Bismarck. The denominator is from the U.S. Census Bureau, Population Division, 2010 Census. The rate is calculated per 1,000. Please note corrections for data reported in 2008. The numerator was reported as 279 with a rate of 15.8. The corrected data is 260 as the numerator with a rate of 14.8.

FORM 14
LIST OF MCH PRIORITY NEEDS

[Sec. 505(a)(5)]

STATE ND FY: 2013

Your State's 5-year Needs Assessment should identify the need for preventive and primary care services for pregnant women, mothers, and infants; preventive and primary care services for children and services for Children with Special Health Care Needs. With each year's Block Grant application, provide a list (whether or not the priority needs change) of the top maternal and child health needs in your state. Using simple sentence or phrase, list below your State's needs. Examples of such statements are: "To reduce the barriers to the delivery of care for pregnant women, " and "The infant mortality rate for minorities should be reduced."

MCHB will capture annually every State's top 7 to 10 priority needs in an information system for comparison, tracking, and reporting purposes; you must list at least 7 and no more than 10. Note that the numbers listed below are for computer tracking only and are not meant to indicate priority order. If your State wishes to report more than 10 priority needs, list additional priority needs in a note at the form level.

1. Form and strengthen partnerships with families, American Indians and underrepresented populations.
2. Form and strengthen a comprehensive system of age appropriate screening, assessment and treatment for the MCH population.
3. Support quality healthcare through medical homes.
4. Increase participation in and utilization of family support services and parent education programs.
5. Increase access to available, appropriate and quality health care for the MCH population.
6. Promote optimal mental health and social-emotional development of the MCH population.
7. Increase the number of child care health consultants and school nurses who provide nursing health services to licensed child care providers and schools.
8. Reduce violent behavior committed by or against children, youth, and women.
9. Reduce the rate of deaths resulting from intentional and unintentional injuries among children and adolescents.
10. Promote healthy eating and physical activity within the MCH population.

FORM NOTES FOR FORM 15

None

FIELD LEVEL NOTES

None

FORM 16
STATE PERFORMANCE AND OUTCOME MEASURE DETAIL SHEET
STATE: ND

SP() # _____ 1

PERFORMANCE MEASURE:

The degree to which families and American Indians participate in Title V program and policy activities.

STATUS:

Active

GOAL:

Form and strengthen partnerships with families, American Indians and underrepresented populations.

DEFINITION:

An assessment tool was developed that utilizes a 5 point scale for six key areas that were determined to reflect participation by families and American Indians in Title V program and policy activities. The attached assessment tool includes a clear description of scale values and what they mean.

Numerator:

The total score of the 5 point scale for each Title V funded program is combined and averaged to determine the numerator.

Denominator:

The total combined points possible based on the 5 point scale for all Title V funded programs.

Units: 5 **Text:** Scale

HEALTHY PEOPLE 2020 OBJECTIVE

Healthy People 2020 Objective-Educational and Community-Based Programs
ECBP-7. All priority areas

DATA SOURCES AND DATA ISSUES

This measure is based on an annual assessment by each of the Title V funded programs in the North Dakota Department of Health in line with its efforts to form and strengthen partnerships with families and American Indians. An assessment tool was developed that measures both collaboration efforts of Title V funded programs as well as representation and participation of families and American Indians on committees, task forces and coalitions to achieve health equality in the maternal and child population. It is based on a qualitative assessment of Title V funded programs and measures partnership involvement and collaboration in 6 key areas for both families and American Indians. The assessment tool utilizes a 5 point scale for each key area. The measure is an average of the scores from each of the Title V funded programs.

SIGNIFICANCE

The improvement of MCH outcomes requires a partner based approach. Health disparities are evident throughout many of the MCH programs. Eliminating them requires the participation of the consumers and underrepresented populations. An effective collaborative approach needs to engage a broad array of stakeholders, community partners and consumers. Eliminating health disparities is also a national priority.

SP() # 2

PERFORMANCE MEASURE:

The percent of Medicaid enrollees receiving Early Periodic Screening, Diagnosis and Treatment (EPSDT) screening services

STATUS:

Active

GOAL

Form and strengthen a comprehensive system of age appropriate screening, assessment and treatment for the MCH population.

DEFINITION

The ND Department of Human Services Form CMS 416: Annual Health Tracks(formerly EPSDT)Participation Report is used to collect data on this measure. The numerator is Row #6 (in Form CMS 416) Total Screens Received and the denominator is Row #5 (in Form CMS 416) Expected Number of Screenings.

Numerator:

Total screens received

Denominator:

Expected number of Health Tracks(formerly EPSDT)screenings

Units: 100 Text: Percent

HEALTHY PEOPLE 2020 OBJECTIVE

Healthy People 2020 Objective-Hearing and Other Sensory or Communication Disorders

ENT-VSL-1 Increase the proportion of newborns who are screened for hearing loss by no later than age 1 month, have audiologic evaluation by age 3 months, and are enrolled in appropriate intervention services no later than age 6 months.

Healthy People 2020 Objective-Maternal, Infant, and Child Health

MICH-29.1 Increase the proportion of young children who are screened for an Autism Spectrum Disorder (ASD) and other developmental delays by 24 months of age.

DATA SOURCES AND DATA ISSUES

CMS 416 – Annual Health Tracks(formerly EPSDT) Participation Report, North Dakota Department of Human Services

SIGNIFICANCE

Twenty-one percent (21%) of ND children did not receive 1 or more preventive medical visits during the past 12 months compared to eleven percent (11%) of children nationally. Forty-two percent (42%) of ND children with special health care needs were not screened early and continuously for a special health care need compared to thirty-six percent (36%) of national children with special health care needs

SP() # _____ 3

PERFORMANCE MEASURE:

The percent of children age 0 through 17 receiving health care that meets the American Academy of Pediatrics (AAP) definition of medical home.

STATUS:

Active

GOAL

Support quality healthcare through medical homes

DEFINITION

Data from the National Survey of Children's Health (NSCH) is utilized for this measure. See Section 5: Medical Home – Questions 4.8: How many children receive health care that meets the AAP definition of medical home? A total of 19 different survey questions are used to develop the overall composite score for having a medical home. The numerator is the estimated number of ND children who meet the criteria for having a medical home and the denominator is the estimated number of ND children 0 through 17 years in the survey.

Numerator:

Estimated number (weighted) of ND children 0 through 17 who meet the criteria for having a medical home(NSCH).

Denominator:

Estimated number (weighted) of ND children ages 0 through 17 years (NSCH).

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2020 OBJECTIVE

Healthy People 2020 Objective-Maternal, Infant, and Child Health

MICH-30.1 Increase the proportion of children who have access to a medical home. MICH-30.2 Increase the proportion of children with special health care needs who have access to a medical home.

DATA SOURCES AND DATA ISSUES

National Survey of Children's Health (NSCH)

SIGNIFICANCE

A medical home ensures comprehensive health for its patients. Care must be accessible, family-centered, continuous, comprehensive, coordinated, compassionate and culturally effective. Benefits will result to all children through medical home.

SP() # _____ 4

PERFORMANCE MEASURE:

The percent of parents who reported that they usually or always got the specific information they needed from their child's doctor and other health care providers during the past 12 months.

STATUS:

Active

GOAL

Increase participation in and utilization of family support services and parent education programs.

DEFINITION

Data from the National Survey of Children's Health (NSCH) is utilized for this measure- see Section 5: Medical Home, Question K5Q43. The numerator includes the combined weighted responses of ND parents indicating "usually" or "always", while the denominator includes the combined weighted responses of ND parents indicating "never", "sometimes", "usually", or "always".

Numerator:

Estimated number (weighted) of ND parents reporting on the NSCH survey that they usually or always got specific information they needed from their child's doctors and other health care providers during the past 12 months.

Denominator:

Estimated number (weighted) of total ND parents responding to the NSCH survey.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2020 OBJECTIVE

Healthy People 2020 Objective -Access to Health Services

AHS-5.1 All ages

Healthy People 2020 Objective -Educational and Community-Based Programs

ECBP-1.1 All priority area

DATA SOURCES AND DATA ISSUES

The data source for this measure is the 2007 National Survey of Children's Health (NSCH). Comparable data is not available from the 2003 survey. Annual data is not available because the survey is only replicated every four years.

SIGNIFICANCE

The positive and clinically significant effects of patient education and counseling of persons with chronic and acute conditions are well-documented. Health care providers are generally considered credible sources for patient and family education and information. Education and support services promote self-management and encourage family empowerment that leads to improved health and well-being.

SP() # 5

PERFORMANCE MEASURE:

Increase the number of children ages 0 to 2 served by an evidenced-based home visiting program.

STATUS:

Active

GOAL

Increase access to available, appropriate and quality health care for the MCH population.

DEFINITION

The numerator is the total number of ND children 0 to 2 served by evidence-based home visiting programs and the denominator is an annual estimate of the 0 to 2 child population in North Dakota for the calendar year. The measure indicates rate per 1000.

Numerator:

The total number of ND children ages 0 to 2 served by evidence-based home visiting programs.

Denominator:

An annual estimate of the total ND child population ages 0 to 2.

Units: 1000 **Text:** Rate

HEALTHY PEOPLE 2020 OBJECTIVE

Healthy People 2020 Objective -Access to Health Services
AHS-5.1 All ages

DATA SOURCES AND DATA ISSUES

Nurse Family Partnership, Healthy Families, Parents as Teachers. Ages to include are 0 (including prenatal) to age 1 year, 11 mo, 31 days. Census estimates used.

SIGNIFICANCE

The benefits of home visiting programs are well documented. Several models have produced benefits in parenting skills and in the prevention of child abuse and neglect. Some programs have identified statistically significant effects on parental behavior, attitudes and educational attainment. One particular program has shown significant results in the areas of birth spacing, longer relationships with current partners, decreased welfare dependency, and increased rates of employment.

SP() # _____ 6

PERFORMANCE MEASURE:

Decrease the percent of students who reported feeling so sad or hopeless almost every day for two weeks or more in a row that they stopped doing some usual activities during the past 12 months.

STATUS:

Active

GOAL

Promote optimal mental health and social-emotional development of the MCH population.

DEFINITION

Data from the ND High School Youth Risk Behavior Survey (Grades 9-12) is utilized for this measure. The numerator is the weighted number of students that responded "yes" to the question QN#23, "During the past 12 months, did you ever feel so sad or hopeless almost every day for two weeks or more in a row that you stopped doing some usual activities?" The denominator is the weighted number of students completing the survey.

Numerator:

The weighted number of students who answer "yes" to survey question QN#23 on YRBS (High School).

Denominator:

Total weighted number of high school students (grades 9 – 12) who completed the YRBS (High School) survey question QN#23.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2020 OBJECTIVE

Healthy People 2020 Objective- Mental Health and Mental Disorders

MHMD-6 Increase the proportion of children with mental health problems who receive treatment. MHMD-9.1 Adults aged 18 years and older with serious mental illness (SMI). MHMD-11 Increase depression screening by primary care providers.

DATA SOURCES AND DATA ISSUES

Youth Risk Behavior Survey (YRBS) of North Dakota Students of grades 9 – 12

SIGNIFICANCE

According to the NSCH, twenty-two percent (22%) of ND adolescents (ages 12 through 17) needed, but did not get mental health services. Early identification of and intervention in mental health issues are critical in this population.

SP() # _____ 7

PERFORMANCE MEASURE:

The ratio of students per school nursing FTE.

STATUS:

Active

GOAL

Increase the number of child care health consultants and school nurses who provide nursing health services to licensed child care providers and schools.

DEFINITION

Data was obtained from the ND School Nursing Services survey. The numerator is calculated by taking the number of hours of nursing hours reported divided by 120 (Six (6) hours/day X 20 school days/ month=1 FTE) The denominator is based on the total public school enrollment for ND during 2009-2010 ND academic year.

Numerator:

This reflects current student enrollment for the specified academic year.

Denominator:

This reflects the current number of school nursing FTEs.

Units: 1 **Text:** Ratio

HEALTHY PEOPLE 2020 OBJECTIVE

Healthy People 2020 Objective-Early and Middle Childhood

EMC-4.2 Increase the proportion of schools that require newly hired staff who teach required health instruction to be certified, licensed, or endorsed by the State in health education. ECBP-5 Increase the proportion of the Nation's elementary, middle, and senior high schools that have a full-time registered school nurse-to-student ratio of at least 1:750.

Healthy People 2020 Objective-Educational and Community-Based Programs

ECBP-1 Increase the proportion of preschools and Early Head Start programs that provide health education to prevent health problems in the following areas: unintentional injury; violence; tobacco use and addiction; alcohol and drug use, unhealthy dietary patterns; and inadequate physical activity, dental health, and safety.

DATA SOURCES AND DATA ISSUES

This information is obtained from the 2010 North Dakota School Nursing Services Survey. This survey is voluntary and is collected in even numbered years. The National Association of School Nurses (NASN) recommends the following ratio of school nurses to students: one nurse for every 750 healthy students. The recommended ratio changes as the health needs of students increase; 1:225 in the student populations that may require daily professional school nursing services or interventions; 1:125 in student populations with complex health care needs; and 1:1 may be necessary for individual students who require daily and continuous professional nursing services.

SIGNIFICANCE

School nursing services are designed to be preventive in nature and include education to encourage lifelong healthy behaviors, first aid, screening (including vision, mental health etc.), referral, medication administration, injury prevention, nutrition & physical activity promotion, emergency care, and appropriate management of acute and chronic health conditions of all students and staff. A coordinated approach helps to ensure a continuum of care from school to home to community healthcare provider and back. Early interventions, including health services, can improve school performance, and they may also improve high school completion rates and lower the incidence of juvenile crime. These programs empower students with the knowledge, skills, and judgment to help them make smart choices in life. Healthy children make better students, and better students make healthy communities.

SP() # _____ 8

PERFORMANCE MEASURE:

Reduce the percent of students who were bullied on school property during the past 12 months.

STATUS:

Active

GOAL

Reduce violent behavior committed by or against children, youth, and women.

DEFINITION

This measure will consist of the percent of respondents of the Centers for Disease Control and Prevention (CDC) biannually conducted Youth Risk Behavior Survey (YRBS). The specific indicator, as reported on the CDC YRBS and the North Dakota Department of Public Instruction (NDDPI) websites, is the weighted percentage of students who had ever been bullied on school property during the past 12 months. Though the website does not provide the numerator and denominator, it does report the weighted percent at 95 % confidence intervals.

Numerator:

The weighted number of students in grades nine through twelve that responded "yes" to the YRBS question, indicating that they had been bullied on school property during the past 12 months.

Denominator:

The weighted number of students in grades nine through twelve that responded to this YRBS question.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2020 OBJECTIVE

Healthy People 2020 Objective –Injury and Violence Prevention
IVP-33 Reduce physical assaults. IVP-35 Reduce bullying among adolescents. IVP-40 Reduce sexual violence.

DATA SOURCES AND DATA ISSUES

The YRBS focuses on health-risk behaviors established during youth that contribute to the leading causes of death, disability, and social problems among youth. The YRBS is given biennially to students in schools that voluntarily participate.

SIGNIFICANCE

Bullying is a form of violence in which one person repeatedly targets another who is weaker, smaller, or more vulnerable. It is repeated behavior intended to harm or disturb the target. An imbalance of power exists in all bullying situations. Bullying can be physical, verbal, and/or psychological when done in person or online. An individual may be impacted by a broad range of many types of violence. Bullying affects both targets and bullies. Targets of bullying are more likely to grow up depressed and anxious. Bullies are much more likely than non-bullies to become adult criminals.

SP() # _____ 9

PERFORMANCE MEASURE:

The rate of deaths to individuals ages 1 through 24 caused by intentional and unintentional injuries per 100,000 individuals.

STATUS:

Active

GOAL

Reduce the rate of deaths resulting from intentional and unintentional injuries among children and adolescents.

DEFINITION

Deaths due to intentional and unintentional injuries are defined as the underlying cause of death indicated on the individual's ND death certificate. The numerator is the total number of deaths for individuals 1 through 24 years of age due to intentional and unintentional injuries within the ICD-10 ranges for the calendar year as captured in the ND Vital Records. The denominator is a census estimate of 1 through 24 year olds in North Dakota. The measure indicates rate per 100,000.

Numerator:

The total number of deaths to individuals ages 1 through 24 due to intentional and unintentional injuries within the calendar year.

Denominator:

The estimated number of individuals age 1 through 24 for the specific calendar year.

Units: 100000 **Text:** Rate

HEALTHY PEOPLE 2020 OBJECTIVE

Healthy People 2020 Objective- Injury and Violence Prevention
IVP-1 Reduce fatal and nonfatal injuries. IVP-11 Reduce unintentional injury deaths.

DATA SOURCES AND DATA ISSUES

Individual deaths due to intentional and unintentional injuries will be obtained from death certificates from ND Vital Records. The population denominator will be obtained from census data vintage estimates.

SIGNIFICANCE

Between 2004 and 2008, injury deaths accounted for seventy-four percent (74%) of the deaths to individuals ages 1 through 24. Both individuals and their families will experience a significant impact to the quality of their life by preventing injuries.

SP() # _____ 10

PERFORMANCE MEASURE:

The percent of healthy weight among adults ages 18 through 44.

STATUS:

Active

GOAL

Promote healthy eating and physical activity within the MCH population.

DEFINITION

Healthy weight is defined as a Body Mass Index (BMI) in the range of greater than or equal to 18.5 and < 25.0 according to the Centers for Disease Control and Prevention. The measure indicates percent of healthy weight among 18 through 44 years of age in the survey population.

Numerator:

The weighted number of respondents ages 18-44 with a Body Mass Index (BMI) greater than or equal to 18.5 and < 25.0.

Denominator:

The weighted number of respondents ages 18-44 providing height and weight information.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2020 OBJECTIVE

Healthy People 2020 Objective—Nutrition and Weight Status

NWS-10 Reduce the proportion of children and adolescents who are considered obese. NWS-11.5 Adults aged 20 years and older. NWS-15.2 Increase the contribution of dark green vegetables, orange vegetables, and legumes to the diets of the population aged 2 years and older.

Healthy People 2020 Objective-Physical Activity

PA-2 Increase the proportion of adults who meet current Federal physical activity guidelines for aerobic physical activity and for muscle-strengthening activity. PA-4 Increase the proportion of the Nation's public and private schools that require daily physical education for all students.

DATA SOURCES AND DATA ISSUES

BMI for the numerator will be collected from the Behavior Risk Factor Surveillance Survey (BRFSS). Population totals for the numerator will be the weighted number of adults 18 through 44 years of age from the BRFSS.

SIGNIFICANCE

According to the results of the 2008 BRFSS, the percent of ND adults who were overweight was 39.6% and 27.8% were obese. Being overweight and obese substantially raise the risk of illness from high blood pressure, high cholesterol, Type 2 diabetes, heart disease and stroke, gallbladder disease, arthritis, sleep disturbances and problems breathing, and certain types of cancers. Obese individuals also may suffer from social stigmatization, discrimination, and lowered self-esteem.

SO() # _____ 1

OUTCOME MEASURE:

The ratio of the American Indian infant mortality rate to the white infant mortality rate.

STATUS:

Active

GOAL

To reduce the disparity between the American Indian infant mortality rate and the white infant mortality rate.

DEFINITION

The value of this measure is calculated by determining the three-year infant mortality rate per 1,000 for the two races and dividing the numerator by the denominator.

Numerator:

The three year infant mortality rate per 1,000 of American Indian infants

Denominator:

The three year infant mortality rate per 1,000 of White infants

Units: 1 **Text:** Ratio

HEALTHY PEOPLE 2020 OBJECTIVE

Healthy People 2020 Objective-Maternal, Infant, and Child Health
MICH-1 Reduce the rate of fetal and infant deaths

DATA SOURCES AND DATA ISSUES

North Dakota Department of Health, Division of Vital Record, matched birth and death files

SIGNIFICANCE

The American Indian infant mortality rate is higher compared to white infant mortality rate in North Dakota.

SO() # 2

OUTCOME MEASURE:

The ratio of the American Indian mortality rate to the white mortality rate from birth through 44 years of age of MCH population.

STATUS:

Active

GOAL

To reduce the disparity between the American Indian mortality rate and the white mortality rate.

DEFINITION

The value of this measure is calculated by determining the three-year average mortality rate per 100,000 of the MCH population from birth through 44 for each race and dividing the numerator by the denominator.

Numerator:

The three year rate of American Indian mortality from birth through 44 years of age of MCH population.

Denominator:

The three year rate of white mortality from birth through 44 years of age of MCH population.

Units: 1 **Text:** Ratio

HEALTHY PEOPLE 2020 OBJECTIVE

Healthy People 2020 Objective-Maternal, Infant, and Child Health

MICH-1 Reduce the rate of fetal and infant deaths. MICH-4 Reduce the rate of adolescent and young adult deaths. MICH-5 Reduce the rate of maternal mortality.

DATA SOURCES AND DATA ISSUES

Division of Vital Record, matched birth and death files and U.S. Census Bureau, Population Division, Vintage Population Estimates.

SIGNIFICANCE

Mortality rate for American Indian are significantly higher than the rate for White mortality when compared to respective population proportions.

HEALTH SYSTEMS CAPACITY INDICATOR #06(SCHIP ELIGIBILITY LEVEL)
 STATE: ND

INDICATOR #06 <i>The percent of poverty level for eligibility in the State's SCHIP programs for infants (0 to 1), children, SCHIP and pregnant women.</i>	YEAR	PERCENT OF POVERTY LEVEL SCHIP
a) <i>Infants (0 to 1)</i>	2011	<u> 160 </u>
b) <i>Medicaid Children</i> (Age range <u> 1 </u> to <u> 6 </u>) (Age range <u> 6 </u> to <u> 19 </u>) (Age range <u> </u> to <u> </u>)	2011	<u> 160 </u> <u> 160 </u> <u> </u>
c) <i>Pregnant Women</i>	2011	<u> 160 </u>

FORM NOTES FOR FORM 18

None

FIELD LEVEL NOTES

1. **Section Number:** Form18_Indicator 06 - Medicaid
Field Name: Med_Infant
Row Name: Infants
Column Name:
Year: 2013
Field Note:
 2011- The source for this 2010 Medicaid data is the North Dakota Department of Human Services – Medicaid program.
2. **Section Number:** Form18_Indicator 06 - Medicaid
Field Name: Med_Children
Row Name: Medicaid Children
Column Name:
Year: 2013
Field Note:
 2011- The source for this 2010 Medicaid data is the North Dakota Department of Human Services – Medicaid program.
3. **Section Number:** Form18_Indicator 06 - Medicaid
Field Name: Med_Women
Row Name: Pregnant Women
Column Name:
Year: 2013
Field Note:
 2011- The source for this 2010 Medicaid data is the North Dakota Department of Human Services – Medicaid program.
4. **Section Number:** Form18_Indicator 06 - SCHIP
Field Name: SCHIP_Infant
Row Name: Infants
Column Name:
Year: 2013
Field Note:
 2011- The source for this SCHIP data is the North Dakota Department of Human Services – SCHIP program.
5. **Section Number:** Form18_Indicator 06 - SCHIP
Field Name: SCHIP_Children
Row Name: SCHIP Children
Column Name:
Year: 2013
Field Note:
 2011- The source for this SCHIP data is the North Dakota Department of Human Services – SCHIP program.
6. **Section Number:** Form18_Indicator 06 - SCHIP
Field Name: SCHIP_Women
Row Name: Pregnant Women
Column Name:
Year: 2013
Field Note:
 2011- The source for this SCHIP data is the North Dakota Department of Human Services – SCHIP program.
7. **Section Number:** Form18_Indicator 05
Field Name: LowBirthWeight
Row Name: Percent of ow birth weight (<2,500 grams)
Column Name:
Year: 2013
Field Note:
 2010- The source of this data is the North Dakota Department of Health – Division of Vital Statistics. The numerators are the number of low weight infants (<2,500 grams) by Medicaid status. The denominators are the number of women who gave birth by Medicaid status.
 Note: Unknowns are included in the non-Medicaid category.
8. **Section Number:** Form18_Indicator 05
Field Name: InfantDeath
Row Name: Infant deaths per 1,000 live births
Column Name:
Year: 2013
Field Note:
 2010- The source of this data is the North Dakota Department of Health – Division of Vital Statistics. The numerators are the infant deaths per 1,000 live births by Medicaid status. The denominators are the number of women who gave birth by Medicaid status.
 Note: Unknowns are included in the non-Medicaid category.
9. **Section Number:** Form18_Indicator 05
Field Name: CareFirstTrimester
Row Name: Percent of infants born to pregnant women receiving prenatal care beginning in the first trimester
Column Name:
Year: 2013
Field Note:
 2010- The source of this data is the North Dakota Department of Health – Division of Vital Statistics. The numerators are the number of pregnant women receiving prenatal care beginning in the first trimester (to whom infants were born during the calendar year) by Medicaid status. The denominators are the number of women who gave birth by Medicaid status.
 Note: Unknowns are included in the non-Medicaid category.
10. **Section Number:** Form18_Indicator 05
Field Name: AdequateCare
Row Name: Percent of pregnant women with adequate prenatal care
Column Name:
Year: 2013
Field Note:
 2010- The source for this data is the North Dakota Department of Health – Division of Vital Statistics. The numerator for the percent of infants born to pregnant women receiving prenatal care beginning in the first trimester under Medicaid and the numerator for the percent of pregnant women with adequate prenatal care (observed to expected prenatal visits is greater than or equal to 80% (Kotelchuck Index) under Medicaid are the same. This is due to the high number of unknown values for the date of the first prenatal care visit. Since Vital Records no

longer collects the trimester prenatal care began, calculation is needed to compute this from the date of birth and date of first prenatal care visit, compared to the gestational age at birth. This leaves unknown trimester data. As more states convert to the new US Standard birth record, this may no longer be a good indicator.
Note: Unknowns are included in the non-Medicaid category.

FORM 19
 HEALTH SYSTEMS CAPACITY INDICATOR - REPORTING AND TRACKING FORM
 STATE: ND

HEALTH SYSTEMS CAPACITY INDICATOR #09A (General MCH Data Capacity)
(The Ability of the State to Assure MCH Program Access to Policy and Program Relevant Information)

DATABASES OR SURVEYS	Does your MCH program have the ability to obtain data for program planning or policy purposes in a timely manner? (Select 1 - 3) *	Does your MCH program have Direct access to the electronic database for analysis? (Select Y/N)
ANNUAL DATA LINKAGES		
Annual linkage of infant birth and infant death certificates	3	Yes
Annual linkage of birth certificates and Medicaid Eligibility or Paid Claims Files	3	Yes
Annual linkage of birth certificates and WIC eligibility files	1	No
Annual linkage of birth certificates and newborn screening files	3	Yes
REGISTRIES AND SURVEYS		
Hospital discharge survey for at least 90% of in-State discharges	1	No
Annual birth defects surveillance system	3	Yes
Survey of recent mothers at least every two years (like PRAMS)	2	No

*Where:
 1 = No, the MCH agency does not have this ability.
 2 = Yes, the MCH agency sometimes has this ability, but not on a consistent basis.
 3 = Yes, the MCH agency always has this ability.

FORM 19
HEALTH SYSTEMS CAPACITY INDICATOR - REPORTING AND TRACKING FORM
 STATE: ND

DATA SOURCES	Does your state participate in the YRBS survey? (Select 1 - 3)*	Does your MCH program have direct access to the state YRBS database for analysis? (Select Y/N)
Youth Risk Behavior Survey (YRBS)	3	Yes
Other: Youth Tobacco Survey	3	Yes

*Where:
 1 = No
 2 = Yes, the State participates but the sample size is not large enough for valid statewide estimates for this age group.
 3 = Yes, the State participates and the sample size is large enough for valid statewide estimates for this age group.

Notes:

1. HEALTH SYSTEMS CAPACITY INDICATOR #09B was formerly reported as Developmental Health Status Indicator #05.

FORM NOTES FOR FORM 19

None

FIELD LEVEL NOTES

1. **Section Number:** Form19_Indicator 09A
Field Name: BAD
Row Name: Annual linkage of infant birth and infant death certificates
Column Name:
Year: 2013
Field Note:
2011-The source for this data is the North Dakota Department of Health, Division of Vital Statistics
2. **Section Number:** Form19_Indicator 09A
Field Name: BAW
Row Name: Annual linkage of birth certificates and MC eligibility files
Column Name:
Year: 2013
Field Note:
2011-The source for this data is from the North Dakota Department of Health.
3. **Section Number:** Form19_Indicator 09A
Field Name: BAN
Row Name: Annual linkage of birth certificates and newborn screening files
Column Name:
Year: 2013
Field Note:
2011-The source for this data is from the North Dakota Department of Health.
4. **Section Number:** Form19_Indicator 09A
Field Name: Discharge
Row Name: Hospital discharge survey for at least 90% of in-State discharges
Column Name:
Year: 2013
Field Note:
2011-The source for this data is from the North Dakota Department of Health.
5. **Section Number:** Form19_Indicator 09A
Field Name: BirthDefects
Row Name: Annual birth defects surveillance system
Column Name:
Year: 2013
Field Note:
2011-The source for this data is from the North Dakota Department of Health.
6. **Section Number:** Form19_Indicator 09A
Field Name: RecentMother
Row Name: Survey of recent mothers at least every two years (like PRAMS)
Column Name:
Year: 2013
Field Note:
2011-The source for this data is from the North Dakota Department of Health.
7. **Section Number:** Form19_Indicator 09B
Field Name: YRBSS_09B
Row Name: Youth Risk Behavior Survey (YRBS)
Column Name:
Year: 2013
Field Note:
2011-The source for this data is from the North Dakota Department of Health.
8. **Section Number:** Form19_Indicator 09B
Field Name: Other1_09B
Row Name: Other
Column Name:
Year: 2013
Field Note:
2011-The source for this data is from the North Dakota Department of Health.
9. **Section Number:** Form19_Indicator 09A
Field Name: BAM
Row Name: Annual linkage of birth certificates and Medicaid Eligibility or Paid Claims Files
Column Name:
Year: 2013
Field Note:
2011-The source for this data is from the North Dakota Department of Health.

FORM 20
HEALTH STATUS INDICATORS #01-#05
MULTI-YEAR DATA
STATE: ND

Form Level Notes for Form 20

None

HEALTH STATUS INDICATOR #01A

The percent of live births weighing less than 2,500 grams.

	2007	2008	Annual Indicator Data		
			2009	2010	2011
Annual Indicator	6.3	6.8	6.4	6.7	6.7
Numerator	554	610	571	605	605
Denominator	8,807	8,913	8,974	9,088	9,088

Check this box if you cannot report the numerator because

1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5
 and therefore a 3-year moving average cannot be applied.
(Explain data in a year note. See Guidance, Appendix IX.)

Is the Data Provisional or Final?

Final

Provisional

Field Level Notes

1. Section Number: Form20_Health Status Indicator #01A

Field Name: HSI01A

Row Name:

Column Name:

Year: 2011

Field Note:

2011-Final 2010 data was used as provisional data for 2011. The source for this data is the North Dakota Department of Health – Division of Vital Statistics.

Field Name: HSI04A**Row Name:****Column Name:****Year:** 2009**Field Note:**

2009-The source for this data is the North Dakota Department of Health – Division of Emergency Medical Services Trauma Registry. The denominator is from the U.S. Census Bureau, Population Division, Vintage 2008 Population Estimates, Annual Estimates of the Resident Population by Single-Year of Age and Sex for the United States and States April 1, 2000 to July 1, 2009. The increase in higher rate in 2008 is attributed to enhanced data reporting.

HEALTH STATUS INDICATOR #04B

The rate per 100,000 of nonfatal injuries due to motor vehicle crashes among children aged 14 years and younger.

Annual Indicator Data

	2007	2008	2009	2010	2011
Annual Indicator	194.8	166.4	260.7	262.1	262.1
Numerator	253	216	289	305	305
Denominator	129,846	129,846	110,866	116,384	116,384

Check this box if you cannot report the numerator because

1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.
- (Explain data in a year note. See Guidance, Appendix IX.)

Row Name: children 20 through 24
Column Name:
Year: 2013
Field Note:
2010- The source for this data is the North Dakota Department of Health – Division of Vital Statistics. Native American strictly NA, not mixed race.
35. **Section Number:** Form21_Indicator 09A
Field Name: HSIRace_Children
Row Name: All children 0 through 19
Column Name:
Year: 2013
Field Note:
2010- The source for this data is the U.S. Census Bureau and the U.S. Bureau of Labor Statistics, Current Population Survey estimates. Data for North Dakota is obtained from a relatively small sample, thus the 90% confidence interval. Totals may vary slightly with use of "point in time" estimates. The More than 1 race is included in the total as it is counted as a separate race.
36. **Section Number:** Form21_Indicator 09A
Field Name: HSIRace_SingleParentPercent
Row Name: Percent in household headed by single parent
Column Name:
Year: 2013
Field Note:
2010- The source of this data is from the CHILDREN IN SINGLE PARENT FAMILIES - U.S. Census Bureau and the U.S. Bureau of Labor Statistics, Current Population Survey, March Supplements (Household Variable, GESTFIPS: Person Variables, A_AGE,PARENT,PRDTRACE), <http://www.census.gov/cps/>; U.S. Census Bureau, 2010 Census Summary File 1 Table P31 and Tables P31A-G. The age group reported is 0 through 17 and not 0 through 19. Children older than 17 are considered adults and thus not dependent upon their parents. Note: CPS data for North Dakota is obtained from a relatively small sample, thus, the 90% confidence intervals may be quite large. See the CPS Technical Documentation for Source and Accuracy information, <http://www.census.gov/apsd/techdoc/cps/cps-main.html>.
37. **Section Number:** Form21_Indicator 09A
Field Name: HSIRace_TANFPercent
Row Name: Percent in TANF (Grant) families
Column Name:
Year: 2013
Field Note:
2010- The source for this data is the North Dakota Department of Human Services. This report is an unduplicated count of TANF cases and recipients for State Fiscal Year 2010 (July 2009-June 2010). To calculate the percent of TANF recipients, data from the U.S. Census Bureau and the U.S. Bureau of Labor Statistics, Current Population Survey estimates were used.
38. **Section Number:** Form21_Indicator 09A
Field Name: HSIRace_MedicaidNo
Row Name: Number enrolled in Medicaid
Column Name:
Year: 2013
Field Note:
2010- The source for this data is from North Dakota Department of Human Services – Medical Services Division. The data represents children enrolled in the Medicaid Program for CY 2010. Medicaid data was extracted using Dataprobe.
39. **Section Number:** Form21_Indicator 09A
Field Name: HSIRace_SCHIPNo
Row Name: Number enrolled in SCHIP
Column Name:
Year: 2013

Field Note:

2010- The source for this data is from the North Dakota Department of Human Services – Medical Services Division, SCHIP program. The data is for children enrolled in the SCHIP program for CY 2010. The data is for children 0 through 18. Medicaid data was extracted using Dataprobe.

40. Section Number: Form21_Indicator 09A**Field Name:** HSIRace_FoodStampNo**Row Name:** Number enrolled in food stamp program**Column Name:****Year:** 2013**Field Note:**

2010-The data is an unduplicated count of food stamp recipients by race for State Fiscal Year 2009 (July 2009 - June 2010). In 2005 and 2006 the data reported was for food stamp recipient families. The More than 1 race is included in the total as it is counted as a separate race.

41. Section Number: Form21_Indicator 09A**Field Name:** HSIRace_WICNo**Row Name:** Number enrolled in WIC**Column Name:****Year:** 2013**Field Note:**

2011- The source for this data is the North Dakota Department of Health WIC program.

42. Section Number: Form21_Indicator 09A**Field Name:** HSIRace_JuvenileCrimeRate**Row Name:** Rate (per 100,000) of juvenile crime arrests**Column Name:****Year:** 2013**Field Note:**

2010-The source for this data is from the North Dakota Bureau of Criminal Investigation. For uniform crime reporting, juveniles are classified as under the age of 18.

43. Section Number: Form21_Indicator 09A**Field Name:** HSIRace_DropOutPercent**Row Name:** Percentage of high school drop-outs (grade 9 through 12)**Column Name:****Year:** 2013**Field Note:**

2010- The source for this data is the North Dakota Department of Public Instruction (DPI). By definition, the data restricts "dropout" to only those students who were listed as dropouts on the DPI four-year database. So in effect, the data is for collective dropouts of the "2010 graduating class". The numerator in this case is the total number of dropouts in the cohort population. This includes grade 9 dropouts in 2005-2006, grade 10 dropouts in 2006-2007, grade 11 dropouts in 2007-2008 and grade 12 dropouts in 2008- 2009. The denominator in this case is the total number of students in the cohort population. Rates are produced for the aggregate and each respective subgroup. DPI has established the operative definition of this dropout cohort model. Cohort rates measure what happens to a cohort of students over a period of time. Cohort rates show the probability that an incoming 9th grade student has of completing high school in four years. This measure is very accurate when individual students are tracked from year to year. High school dropouts are estimated in North Dakota from the number of graduates and the number of dropouts in the cohort during their four years in high school. Cohort rates, like event rates, are calculated from complete data reported by all high schools.

44. Section Number: Form21_Indicator 09B**Field Name:** HSIethnicity_Children**Row Name:** All children 0 through 19**Column Name:****Year:** 2013**Field Note:**

2010- The source for this data is the U.S. Census Bureau and the U.S. Bureau of Labor Statistics, Current Population Survey estimates. Data for North Dakota is obtained from a relatively small sample, thus the 90% confidence interval. Totals may vary slightly with use of "point in time" estimates.

45. Section Number: Form21_Indicator 09B**Field Name:** HSIethnicity_SingleParentPercent**Row Name:** Percent in household headed by single parent**Column Name:****Year:** 2013**Field Note:**

2010- The source of this data is from the CHILDREN IN SINGLE PARENT FAMILIES - U.S. Census Bureau and the U.S. Bureau of Labor Statistics, Current Population Survey, March Supplements (Household Variable, GESTFIPS: Person Variables, A_AGE,PARENT,PRDTRACE), <http://www.census.gov/cps/>; U.S. Census Bureau, 2010 Census Summary File 1 Table P31 and Tables P31A-G. The age group reported is 0 through 17 and not 0 through 19. Children older than 17 are considered adults and thus not dependent upon their parents. Note: CPS data for North Dakota is obtained from a relatively small sample, thus, the 90% confidence intervals may be quite large. See the CPS Technical Documentation for Source and Accuracy information, <http://www.census.gov/apsd/techdoc/cps/cps-main.html>

46. Section Number: Form21_Indicator 09B**Field Name:** HSIethnicity_TANFPercent**Row Name:** Percent in TANF (Grant) families**Column Name:****Year:** 2013**Field Note:**

2010-The source for this data is the North Dakota Department of Human Services. This report is an unduplicated count of TANF cases and recipients for State Fiscal Year 2010 (July 2009- June 2010). To calculate the percent of TANF recipients, data from the U.S. Census Bureau and the U.S. Bureau of Labor Statistics, Current Population Survey estimates were used. Due to rounding, total may be over 100%.

47. Section Number: Form21_Indicator 09B**Field Name:** HSIethnicity_MedicaidNo**Row Name:** Number enrolled in Medicaid**Column Name:****Year:** 2013**Field Note:**

2010-Data on ethnicity was not extracted this year.

48. Section Number: Form21_Indicator 09B**Field Name:** HSIethnicity_SCHIPNo**Row Name:** Number enrolled in SCHIP**Column Name:****Year:** 2013**Field Note:**

2010-The source for this data is from the North Dakota Department of Human Services – Medical Services Division, SCHIP program. The data is for children enrolled in the SCHIP program for CY 2010. The data is for children 0 through 18. Data on ethnicity was not extracted this year.

49. Section Number: Form21_Indicator 09B**Field Name:** HSIethnicity_FoodStampNo

Row Name: Number enrolled in food stamp program

Column Name:

Year: 2013

Field Note:

2010- The data is an unduplicated count of food stamp recipients by race for State Fiscal Year 2009 (July 2009 - June 2010). In 2005 and 2006 the data reported was for food stamp recipient families.

50. **Section Number:** Form21_Indicator 09B

Field Name: HSIethnicity_WCNo

Row Name: Number enrolled in WIC

Column Name:

Year: 2013

Field Note:

2010-The source for this data is the North Dakota Department of Health WIC program.

51. **Section Number:** Form21_Indicator 09B

Field Name: HSIethnicity_JuvenileCrimeRate

Row Name: Rate (per 100,000) of juvenile crime arrests

Column Name:

Year: 2013

Field Note:

2010- Data on ethnicity is not consistently reported to the ND Bureau of Criminal Investigation.

52. **Section Number:** Form21_Indicator 09B

Field Name: HSIethnicity_DropOutPercent

Row Name: Percentage of high school drop-outs (grade 9 through 12)

Column Name:

Year: 2013

Field Note:

2010- The source for this data is the North Dakota Department of Public Instruction (DPI). By definition, the data restricts "dropout" to only those students who were listed as dropouts on the DPI four-year database. So in effect, the data is for collective dropouts of the "2010 graduating class". The numerator in this case is the total number of dropouts in the cohort population. The denominator in this case is the total number of students in the cohort population. Rates are produced for the aggregate and each respective subgroup. DPI has established the operative definition of this dropout cohort model. Cohort rates measure what happens to a cohort of students over a period of time. Cohort rates show the probability that an incoming 9th grade student has of completing high school in four years. This measure is very accurate when individual students are tracked from year to year. High school dropouts are estimated in North Dakota from the number of graduates and the number of dropouts in the cohort during their four years in high school. Cohort rates, like event rates, are calculated from complete data reported by all high schools. Hispanic is considered as a calculated race.

57. **Section Number:** Form21_Indicator 11

Field Name: S11_total

Row Name: Total Population

Column Name:

Year: 2013

Field Note:

2010-The source for this data is from the U.S. Census Bureau and the U.S. Bureau of Labor Statistics, Current Population Survey (CPS), March Supplements (Family Variable, POVLL: Household Variable, GESTRIPS: Person Variable, A_AGE), <http://www.census.gov/cps/>. The age group reported is 0 through 17 and not 0 through 19. Children older than 17 are considered adults and thus not dependent upon their parents. Data for North Dakota is obtained from a relatively small sample, thus the 90% confidence interval.

58. **Section Number:** Form21_Indicator 11

Field Name: S11_50percent

Row Name: Percent Below: 50% of poverty

Column Name:

Year: 2013

Field Note:

2010-The source for this data is from the U.S. Census Bureau and the U.S. Bureau of Labor Statistics, Current Population Survey (CPS), March Supplements (Family Variable, POVLL: Household Variable, GESTFIPS: Person Variable, A_AGE), <http://www.census.gov/cps/>. The age group reported is 0 through 17 and not 0 through 19. Children older than 17 are considered adults and thus not dependent upon their parents. Data for North Dakota is obtained from a relatively small sample, thus the 90% confidence interval.

59. Section Number: Form21_Indicator 11

Field Name: S11_100percent

Row Name: 100% of poverty

Column Name:

Year: 2013

Field Note:

2010-The source for this data is from the U.S. Census Bureau and the U.S. Bureau of Labor Statistics, Current Population Survey (CPS), March Supplements (Family Variable, POVLL: Household Variable, GESTFIPS: Person Variable, A_AGE), <http://www.census.gov/cps/>. The age group reported is 0 through 17 and not 0 through 19. Children older than 17 are considered adults and thus not dependent upon their parents. Data for North Dakota is obtained from a relatively small sample, thus the 90% confidence interval.

60. Section Number: Form21_Indicator 11

Field Name: S11_200percent

Row Name: 200% of poverty

Column Name:

Year: 2013

Field Note:

2010-The source for this data is from the U.S. Census Bureau and the U.S. Bureau of Labor Statistics, Current Population Survey (CPS), March Supplements (Family Variable, POVLL: Household Variable, GESTFIPS: Person Variable, A_AGE), <http://www.census.gov/cps/>. The age group reported is 0 through 17 and not 0 through 19. Children older than 17 are considered adults and thus not dependent upon their parents. Data for North Dakota is obtained from a relatively small sample, thus the 90% confidence interval.

61. Section Number: Form21_Indicator 12

Field Name: S12_Children

Row Name: Children 0 through 19 years old

Column Name:

Year: 2013

Field Note:

2010-The source for this data is from the U.S. Census Bureau and the U.S. Bureau of Labor Statistics, Current Population Survey (CPS), March Supplements (Family Variable, POVLL: Household Variable, GESTFIPS: Person Variable, A_AGE), <http://www.census.gov/cps/>. The data represents children 0 to 19.

62. Section Number: Form21_Indicator 12

Field Name: S12_50percent

Row Name: Percent Below: 50% of poverty

Column Name:

Year: 2013

Field Note:

2010-The source for this data is from the U.S. Census Bureau and the U.S. Bureau of Labor Statistics, Current Population Survey (CPS), March Supplements (Family Variable, POVLL: Household Variable, GESTFIPS: Person Variable, A_AGE), <http://www.census.gov/cps/>. The data represents children 0 to 19.

63. Section Number: Form21_Indicator 12

Field Name: S12_100percent

Row Name: 100% of poverty

Column Name:

Year: 2013

Field Note:

2010-The source for this data is from the U.S. Census Bureau and the U.S. Bureau of Labor Statistics, Current Population Survey (CPS), March Supplements (Family Variable, POVLL: Household Variable, GESTFIPS: Person Variable, A_AGE), <http://www.census.gov/cps/>. The data represents children 0 to 19.

64. Section Number: Form21_Indicator 12

Field Name: S12_200percent

Row Name: 200% of poverty

Column Name:

Year: 2013

Field Note:

2010-The source for this data is from the U.S. Census Bureau and the U.S. Bureau of Labor Statistics, Current Population Survey (CPS), March Supplements (Family Variable, POVLL: Household Variable, GESTFIPS: Person Variable, A_AGE), <http://www.census.gov/cps/>. The data represents children 0 to 19.

65. Section Number: Form21_Indicator 09A

Field Name: HSIRace_FosterCare

Row Name: Number living in foster home care

Column Name:

Year: 2013

Field Note:

2010-The data is collected from Children and Family Services – Department of Human Services. The data is for Federal Fiscal Year 2009 (October 1, 2009 - September 30, 2010). The data is an unduplicated count of children in foster care during the federal fiscal year. The More than 1 race is included in the total as it is counted as a separate race.

66. Section Number: Form21_Indicator 09B

Field Name: HSIethnicity_FosterCare

Row Name: Number living in foster home care

Column Name:

Year: 2013

Field Note:

2010-The data is collected from Children and Family Services – Department of Human Services. The data is for Federal Fiscal Year 2009 (October 1, 2009 - September 30, 2010). The data is an unduplicated count of children in foster care during the federal fiscal year.
